

South Dakota can ensure more energy efficient and resilient homes and businesses by adopting the latest building energy codes, which lower utility bills, improve resilience to natural disasters, improve construction quality, create local jobs and support workforce training for South Dakotans.

South Dakota can expect to see the following impacts by adopting and implementing:

Latest Model Energy Codes

0.04 Quads in energy savings

7 MMT of CO₂ emission reduction

\$1 billion in energy cost savings

Zero Energy Codes

0.27 Quads in energy savings

42 MMT of CO₂ emission reduction

\$1 billion in energy cost savings

Additional resources are available such as tax credits, Home Electrification Rebates, Home Efficiency Rebates, implementation support, and other cross-cutting assistance to help South Dakotans offset their costs. Learn more at [energy.gov/save](https://www.energy.gov/save)
