BEFORE THE
U.S. DEPARTMENT OF ENERGY
Washington, D.C. 20585

In the Matter of:	)	
Irrigation Components International (electric motors)	)	Case Number: 2020-CE-65001

ORDER

For the U.S. Department of Energy ("DOE"):

1. On September 14, 2023, under the above-listed case number, DOE issued a Notice of Proposed Civil Penalty to Irrigation Components International ("Respondent") to pursue a civil penalty for knowingly distributing in commerce in the United States various basic models of electric motors without submitting to DOE a report certifying that those basic models complied with the applicable energy conservation standards.

2. Electric motors are covered equipment. 42 U.S.C. § 6311(1)(A) and 10 C.F.R. § 431.2.

3. Pursuant to 10 C.F.R. §§ 429.64 and 431.36, manufacturers must submit to DOE a report certifying that each basic model meets the applicable energy conservation standard, before distributing each basic model in commerce in the United States.

4. Failure to submit a certification report for covered equipment in accordance with 10 C.F.R. §§ 429.64 and 431.36 is a prohibited act pursuant to 10 C.F.R. § 431.382 and subject to civil penalties as described in 10 C.F.R. § 431.382.

5. Pursuant to 10 C.F.R. § 431.382, each day that a manufacturer fails to submit a certification report for a basic model is a separate violation.

6. Respondent admitted the following:

    a. Respondent has manufactured[1] electric motors, including basic models ICII-1557H and ICII-1568H ("the basic models").

    b. For at least 365 days, Respondent has distributed in commerce[2] the basic models in the United States.

[1] "Manufacture" means to manufacture, produce, assemble, or import. 42 U.S.C. § 6291(10).
[2] "Distribute in Commerce" or "Distribution in Commerce" means to sell in commerce, to import, to introduce or deliver for introduction into commerce, or to hold for sale or distribution after introduction into commerce. 42 U.S.C. § 6291(16).

c. Respondent knowingly failed to submit a certification report for the basic models, in violation of 10 C.F.R. §§ 429.64 and 431.36.

7. Based on the information above, I find that Respondent knowingly committed Prohibited Acts by manufacturing and distributing in commerce basic models of covered equipment without submitting to DOE a certification report certifying that those basic models complied with the applicable energy conservation standards. *See* 42 U.S.C. §§ 6302, 6316; 10 C.F.R. §§ 429.64 and 431.36.

8. Accordingly, pursuant to 10 C.F.R. § 431.382 and 42 U.S.C. §§ 6303 and 6316, I **HEREBY ASSESS** a civil penalty of $197,830 **AND ORDER** that the Settlement Agreement attached to this Order is adopted.
