

PORTSMOUTH PADUCAH PROJECT OFFICE (PPPO)

Paducah Gaseous Diffusion Plant Citizens Advisory Board ANNUAL WORKPLAN Fiscal Year 2024

INTRODUCTION

The Paducah Gaseous Diffusion Plant (PGDP) Citizens Advisory Board (CAB) is a Federal Advisory Committee Act board, chartered to provide advice to the U. S. Department of Energy (DOE) Office of Environmental Management (EM) located at the Paducah site. The Portsmouth/Paducah Project Office (PPPO) manages the Environmental Management activities at Paducah.

The CAB is comprised of up to 15 individuals from the Western Kentucky and Southern Illinois areas. The members, who can serve up to three consecutive two-year terms, represent business, academia, labor, local government, environmentalist, special interest groups, and the general public. In addition to DOE, the Environmental Protection Agency Region IV, the Kentucky Department of Waste Management, the Kentucky Cabinet for Health Services, and the West Kentucky Wildlife Management Area are represented on the board in an advisory capacity.

The scope of the CAB is to provide advice and recommendations concerning the following EM site-specific issues: clean-up standards and environmental restoration; waste management and disposition; stabilization and disposition of non-stockpile nuclear materials; excess facilities; future land use and long term stewardship; risk assessment and management; and clean-up science and technology activities. The Board may also be asked to provide advice and recommendations on any other EM projects or issues.

The board meets monthly to hear presentations by persons working on relevant environmental management topics. Additionally, the board meets to consider recommendations developed by the PGDP CAB, to listen to and discuss input from citizens, and to perform other business. The board strives for consensus in reaching decisions and conducts business under a set of bylaws, standing rules, and special rules of order.

The Paducah CAB generally works to achieve its mission through its subcommittee structure, and each year the board holds a planning meeting to determine how best to address its mission. An active educational series operating in an administrative and preparatory manner to prepare board members and future subcommittees for the task of advising DOE. The educational series has been developed based on future project priorities, as selected by the CAB members, with guidance from DOE.

This work plan addresses the CAB's educational priorities for fiscal year (FY) 2024 and the anticipated topics. While the board intends to structure its activities to focus on the priority subjects, it is understood that other topics may present themselves that could result in deviation from the work plan and the development of *ad hoc* subcommittees.

CAB Executive Subcommittee

The board's executive subcommittee is typically comprised of the current board chair and vice chair; and chairs of active subcommittees established at the annual retreat. Under the current CAB structure, the 2023 Executive Committee will be comprised of the board chair, vice chair, the past vice chair, and 3 "delegate" board members as elected by the CAB. The executive subcommittee meets regularly to direct administrative actions of the CAB, as well as to maintain the focus and direction of the board and any *ad hoc* subcommittees.

CAB Meetings

CAB meetings are intended to communicate the business of the CAB and to discuss and vote on recommendations to be submitted to DOE. In addition, DOE and liaison comments will be made in the form of a presentation intended to brief CAB members of recent developments and provide site highlights and accomplishments. DOE plans to have administrative CAB meetings on the following dates:

- November 16, 2023
- January 18, 2024
- March 21, 2024
- May 16, 2024
- June 20, 2024
