LAKE HARTWELL WATER SUPPLY STORAGE REALLOCATION STUDY

- Study status:
 - Currently going through District Quality Control (DQC)
 - Director's Report completed – 31 March 2025
- Provides additional storage to 4 Users (Anderson, Lavonia, Pioneer, and Curahee)
- Inclusion of return flow credits reduced the total storage required for reallocation from 19,950 to 12,616 acre-ft (~1 percent of conservation pool).
 - Combined withdrawal of requestors is 38 cfs
- Not all return flow is returned to Hartwell, as an example only 7.6 cfs (20%) of the total withdrawal returns to Hartwell.
