ENERGY | Office of
Cybersecurity, Energy Security,
and Emergency Response

RESPOND | ASSESS | RESTORE

MAKE A DIFFERENCE

Driven by the desire to help during an energy emergency, Emergency Support Function #12 (ESF #12) responders are volunteers from across the U.S. Department of Energy (DOE) with diverse skills and experience.

ESF #12 responders, led by DOE's Office of Cybersecurity, Energy Security, and Emergency Response (CESER), are called to action during a disaster, such as a hurricane or wildfire. ESF #12 responders facilitate the restoration of damaged energy systems and infrastructure in the affected areas.

When deployed, ESF #12 responders work tirelessly to provide technical assistance, engineering expertise, and other government capabilities to support critical efforts on the ground to restore power to communities.

JOIN US

ESF #12 is a unique opportunity to apply your skills and expertise to serve communities in need across the United States. ESF #12 responders create strong bonds with other team members, develop new on-the-job skills, and share a purpose of helping others during a crisis.

ESF #12 responders are:

- ▶ DOE Federal employees
- ▶ Willing to serve during an emergency for up to 2 weeks
- ▶ Able to thrive in fast-paced environments

APPLY TODAY

Why should you join the ESF #12 team?

- ▶ Take part in the privilege of helping our nation and communities in a time of need
- ▶ Develop skills beyond your day-to-day professional duties
- ▶ Grow your professional network and create lasting relationships with this diverse group of volunteers
