

National Transmission Planning Study

Technical Review Committee Plenary Meeting Summary

October 17, 2023

The Technical Review Committee (TRC) for the National Transmission Planning Study met on Tuesday, October 17th, to receive updates from the project's modeling and stakeholder engagement teams at Pacific Northwest National Laboratory (PNNL) and the National Renewable Energy Laboratory (NREL). The project's modeling and economic analyses teams presented on the following topics:

- Modeling framework review
- Capacity expansion modeling updates
- Stress cases and economic analysis

The purpose of this meeting was to provide overarching project updates, answer clarifying questions, and foster discussion on the methodologies presented. Updates on upcoming Subcommittee meetings were also provided during the call. For reference, the full TRC includes the Modeling, Government, and Land Use Subcommittees. Additional information on the NTPS as well as registration information to attend upcoming public meetings can be found on the NTPS webpage, which can be found here: <https://www.energy.gov/gdo/national-transmission-planning-study>. For any questions, please contact: NTPStudy@hq.doe.gov. To comment on the NTPS, please complete the following
