

National Transmission Planning Study

Government Subcommittee Meeting Summary

November 17, 2023

The Government Subcommittee of the Technical Review Committee (TRC) for the National Transmission Planning Study (NTP Study) met on Friday, November 17th to receive updates from the project's modeling and stakeholder engagement teams at Pacific Northwest National Laboratory (PNNL) and the National Renewable Energy Laboratory (NREL). The project's modeling and economic analyses teams presented on the following topics:

- Modeling and project timeline updates
- Updates on the following analyses tasks:
 - Resource adequacy
 - Extreme events
 - Economics
- Review of *Regulatory Pathways* concept and task updates
- Final questions and next meeting updates

The purpose of this meeting was to provide project updates and foster discussion on the methodologies presented. There will be a public webinar for the study in Winter 2024. For reference, the full TRC includes the Modeling, Government, and Land Use Subcommittees. Additional information on the NTP Study as well as registration information to attend upcoming public meetings can be found on the NTP Study webpage, which can be found here:
