**Subject:** [EXTERNAL] Please oppose the Calcasieu Pass 2 project  
**Date:** Tuesday, October 17, 2023 2:00:20 AM

---

Dear Secretary,

The Federal Energy Regulatory Commission is currently considering whether to approve the Calcasieu Pass 2 (CP2) liquefied methane gas export terminal, which would be constructed on Louisiana's Gulf Coast. I urge you to oppose CP2.

If completed, CP2 would be responsible for a tremendous increase in greenhouse gas emissions. The scientific consensus on climate change is clear, and the world having the hottest September in recorded history last month shows that it's happening now. Approving CP2 would accelerate climate change, which is plainly against the public interest.

Please oppose CP2. Thank you for your time.

Sincerely,  
Natasha Yergin  
Villa Park, IL 60181
