Posting of Off-the-Record Communication

The attached document was sent to the Department of Energy in reference to this proceeding, Venture Global CP2 LNG, LLC, Docket No. 21-131-LNG. This document is considered an "off-the-record communication" under 10 CFR 590.102 and 590.108 because (1) the person/entity who either made the communication or knowingly caused the communication to be made is an "interested person;" (2) the communication was directed to a "decisional employee;" and (3) the communication "is relevant to the merits of the proceeding."

The comment period for this proceeding has closed. This communication is posted here in compliance with regulations. As provided in 10 CFR 590.108(a)(5), a request by a party wishing to rebut this communication, on the record, may be submitted in writing. As specified in this regulation, such requests will be granted "only for good cause."

By Docket Room at 12/01/2023 8:00 a.m.

ACE
Action for the Climate Emergency

November 30, 2023

Dear President Biden and the Department of Energy,

You have the opportunity to stop the biggest build out of fossil fuels in US history: the construction of over 20 new liquefied natural gas (LNG) export facilities. If constructed, they could add the equivalent emissions of 675 coal-fired power plants. We implore you to please stop CP2 and all new LNG permit approvals due to the negative impacts these facilities would have on our communities, the climate, and US consumers.

For example, the proposed Calcasieu Pass 2 (CP2) export facility would be the largest built in human history and would produce over 20x more emissions than the Willow Project—the same level of emissions as 42 million gas-powered cars.

Not only will these export facilities affect our ability to mitigate climate change, but their approval will mean higher utility bills for American families. Local frontline communities will be exposed to pollutants that are linked to greater risks of heart disease, cancer, respiratory illness, and damage to reproductive systems and internal organs.

This has to stop. President Biden and the Department of Energy, we implore you to stop CP2 and all new LNG permit approvals due to the negative impacts these facilities would have on our communities, the climate, and US consumers.

Please see the 11,266 petition signatures included in the following pages.

Sincerely,

Leah Qusba

Executive Director
Action for the Climate Emergency (ACE)
