Re: Magnolia LNG

Dear Ms. Sweeney:

I write on behalf of Family and Youth Counseling Agency (Family & Youth) in support of Magnolia LNG, LLC's (Magnolia LNG) export application.

I represent Family & Youth, a family serving organization that provides support services to citizens in Southwest Louisiana. I believe that Magnolia LNG's investments will have a positive impact in the region. It has the potential to generate local jobs, regional economic development, and global energy security. In addition, as I understand it, their footprint will bring about new and innovative technologies leading to lower greenhouse gas emissions.

As a family serving organization, Family & Youth has benefited from Magnolia LNG's corporate partnership and volunteer leadership. Corporate support not only sustain and supports critical service delivery to citizens in need but allows for development of innovative practices through resource development and volunteerism for the benefit of local citizens and their families.

I join local governments, project partners and the citizens from communities surrounding Magnolia LNG in their support of this multi-billion-dollar project.

Sincerely,

Julio Galan
President & CEO
