On November 13, 2023, Macquarie Energy LLC (Macquarie Energy) filed an application with the Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)¹ for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on February 1, 2024.² Macquarie Energy is a Texas limited liability company with its principal place of business in Houston, Texas.

1. Import natural gas from Canada by pipeline at any point on the border between the United States and Canada
2. Import natural gas from Mexico by pipeline at any point on the border between the United States and Mexico
3. Export natural gas to Canada by pipeline at any point on the border between the United States and Canada
4. Export natural gas to Mexico by pipeline at any point on the border between the United States and Mexico
5. Import liquefied natural gas (LNG) from various international sources by vessel at any LNG import terminal in the United States and its territories
6. Import LNG from Canada by truck at any LNG receiving facility in the United States and its territories

9. Export LNG to Mexico by truck from any LNG departure facility in the United States and its territories

Import and export authority was requested for up to a combined total volume equivalent to 1,500 billion cubic feet (Bcf) of natural gas.

1. Authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FECM in Redelegation Order No. S4-DEL-FE1-2023, issued on April 10, 2023.

2. Macquarie Energy's blanket authorization, granted in DOE/FECM Order No. 4784, extended through January 31, 2024.

II. **FINDING**

DOE has evaluated the application to determine if the proposed import and/or export arrangements meet the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including LNG, from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.³ DOE must grant such applications without modification or delay.⁴ The authorization sought by Macquarie Energy meets the NGA section 3(c) criteria, and, therefore, is deemed to be consistent with the public interest.
