<u>Item</u>	<u>Subject</u>	<u>FAR Case</u>
I	Establishing Federal Acquisition Regulation Part 40	2022-010

Item I — Establishing Federal Acquisition Regulation Part 40 (FAR Case 2022-010)

This final rule amends the FAR to add the framework for a new FAR part 40, which will contain the policies and procedures for managing information security and supply chain security when acquiring products and services.

The creation of this new FAR part does not implement any of the policies or procedures related to managing information security and supply chain security. The rule simply establishes the new FAR part.

Relocation of the related existing policies or procedures will be done through separate rulemaking.
