Subject: [EXTERNAL] Venture Global Plaquemines LNG Short-Term Re-Export Application, Docket No. 24-33-LNG: Supplement to Correct Error
Date: Tuesday, April 30, 2024 5:16:51 PM
Attachments: [image001.png](#)

On April 22, 2024, Venture Global Plaquemines LNG, LLC (Plaquemines LNG) filed an application in Docket No. 24-33-LNG requesting blanket authorization to export liquefied natural gas (LNG) that has been previously imported into the United States from foreign sources in an amount up to the equivalent of 6 billion cubic feet (Bcf) of natural gas for a period of two years beginning July 22, 2024. While the requested quantity of 6 Bcf was included in the application, an alternative measure of 600 million cubic feet (MMcf) was specified at pages 1, 7, 9, 12, and 16. This reference was in error and should instead have specified 6,000 MMcf, as equivalent to the requested 6 Bcf. Accordingly, Plaquemines LNG hereby corrects the manifest errors in its application by replacing all references in it to 600 MMcf with 6,000 MMcf.

Thanks for your assistance with this correction,

J. Patrick Nevins

Subject: [EXTERNAL] Venture Global Plaquemines LNG Short-Term Re-Export Application

Greetings once again-

Attached is an application of Venture Global Plaquemines LNG, LLC for a blanket authorization to export previously imported LNG from its Terminal. The signed verification and opinion of counsel are included within the Application. I submitted the \$50 filing fee via credit card through the Pay.gov website and have attached confirmation of that payment.

Just let me know if you have any questions about the application, and thanks as always for your assistance.

Regards,

J. Patrick Nevins
