## General Comment

I am writing in support of the Delfin LNG export project and I am urging the DOE to grant Delfin their non-FTA export extension. The Delfin management team has proven the economic viability of the project and deserves the opportunity to see the full capabilities of their project come to fruition. I trust that the DOE will continue to lean in favor of projects that are well within the public interest and will provide substantial economic benefits to the Gulf region. Thank you for your time and consideration.
