Document: DOE-HQ-2024-0020-DRAFT-0010

Comment on FR Doc # 2024-06703

Submitter Information

Name: Jerry Brockman

Address: United States,

General Comment

LNG is clean energy, and the Delfin project means clean energy jobs for Americans. It also means that we will be able to help our allies in the event of crisis such as the protracted war by Ukraine against Russian aggression.

Weapons alone can not win wars. We need to be a nation capable of providing food, and energy as well. I believe this project is a matter of not just National Security, but International Security.
