## NEPA Documentation Addendum

**Purpose:** The purpose of this form is to document additional information used to support a NEPA decision, a recommendation, or to provide clarification to NEPA documents under evaluation.

**Additional information relating to:**

LM Site, Facility, or Program:	Split Rock WY Site
Project or Activity Description:	Grazing Haying and Irrigation Actions
LM NEPA Tracking No.:	LM 16-23 CXE

**This is an addendum to the following:** (check appropriate box)

<input checked="" type="checkbox"/>	NEPA CXE form
<input type="checkbox"/>	Other Describe: _____

The information above should match information on the completed form to which this will be an addendum.

**Additional information:**

Provide bulleted list of comment(s).

- There are no changes to the grazing area that was originally outlined in the CXE package signed on 1/31/2024.
- Changes identified are the original grazing area and grazing activities are conducted by two entities not one.
- Thus, there will be two grazing agreements with DOE to reflect prior grazing activities with the two entities on the site with WNI and the site's previous federal land management agency, the U.S. Bureau of Land Management.
