

### Tribal Clean Energy Funding Opportunities

The U.S. Department of Energy (DOE) Office of Indian Energy Policy and Programs (Office of Indian Energy), DOE Offices, and other government entities provide funding and financing on a formula and competitive basis to support the development and deployment of clean energy infrastructure and technology on Tribal lands. In addition to the \$75 million committed to Tribal energy projects selected in 2023, the Office of Indian Energy has invested over \$120 million in more than 210 Tribal energy projects across the United States between 2010 and 2022, valued at nearly \$215 million.

#### Current Funding Opportunities for Indian Tribes and Tribal Entities

For questions regarding a specific funding opportunity in this table, please contact the listed agency.

Title	Description	Agency	Amount	Deadline
<b>Rural Energy for America Program: Renewable Energy Systems and Energy Efficiency Improvements</b>	Grants under this program will help agricultural producers and rural small businesses invest in renewable energy systems and energy efficiency improvements. These grants are available under the Rural Energy for America Program and will prioritize communities that are marginalized, underserved, and overburdened by pollution.	U.S. Department of Agriculture (USDA)	\$1 billion	Quarterly deadlines:  June 30, 2024  September 30, 2024
<b>Energy Transitions Initiative Partnership Project (ETIPP)</b>	This program provides technical assistance to coastal, remote, and island communities to bolster their energy resilience through tailored solutions. Communities accepted to this cohort will also receive direct funding to support their time and engagement on the ETIPP project, in addition to in-kind technical assistance.  Federally recognized Tribes in an ETIPP-supported region are eligible to receive technical assistance. Applicants are encouraged to consult with an ETIPP regional partner before replying: <a href="mailto:ETIPP@nrel.gov">ETIPP@nrel.gov</a> .	DOE Office of Energy Efficiency and Renewable Energy (EERE)	N/A	July 10, 2024
<b>Rural Community Development Initiative Grants</b>	Grants under this program will provide funding to organizations that provide financial and technical assistance for housing, community facilities, or community and economic development projects. Eligible applicants include public (including Tribal) organizations, nonprofit organizations, and qualified private organizations.	USDA	\$5 million	July 10, 2024
<b>Clean Heavy Duty Vehicles Grant Program</b>	This funding opportunity will incentivize and accelerate the replacement of existing non-zero-emission Class 6 and 7 heavy-duty vehicles with zero-emission Class 6 and 7 vehicles. This funding to support zero-emission vehicles will benefit communities that are disproportionately burdened by air pollution and marginalized by underinvestment. Funding may also be used for zero-emission vehicle refueling infrastructure, workforce development and training, and project implementation costs.	U.S. Environmental Protection Agency (EPA)	At least \$400 million	July 25, 2024
<b>EPA Brownfields Job Training Grants - Fiscal Year 2025</b>	This funding will support Brownfields Job Training programs that recruit, train, and place local, unemployed, and under-employed residents with the skills needed to secure full-time employment in the environmental field. EPA anticipates awarding approximately 20 grants nationwide at amounts up to \$500,000 per award. Job training	U.S. EPA	\$14 million	August 15, 2024

Title	Description	Agency	Amount	Deadline
	participants learn the skills and earn credentials needed to secure full-time, sustainable employment in the environmental field, including brownfields assessment and cleanup.			
<b>Charging and Fueling Infrastructure (CFI) Discretionary Grant Program</b>	This funding will expand the national electric vehicle (EV) charging network by funding EV charging and alternative-fueling infrastructure in urban and rural communities and along designated highways, interstates, and major roadways—including charging at multi-family housing and destinations where vehicles are parked.	U.S. Department of Transportation (DOT) Federal Highway Administration (FHWA)	\$1.3 billion	August 28, 2024
<b>Inflation Reduction Act Community Change Grants Program</b>	This program supports disadvantaged communities through projects that reduce pollution, increase community climate resilience, and build community capacity to address environmental and climate justice challenges. These place-based investments will focus on communities most adversely and disproportionately impacted by climate change, legacy pollution, and historical disinvestments.	U.S. EPA	\$2 billion	November 11, 2024 (rolling basis)
<b>Tribal and Territory Grants: Diesel Emissions Reduction Act</b>	This program will incentivize and accelerate the upgrading or retirement of legacy diesel engine fleets for federally recognized Tribal governments, Alaska Native Villages, and others. Eligible activities include the retrofit or replacement of existing diesel engines, vehicles, and equipment with the EPA and California Air Resources Board certified engine configurations and verified retrofit and idle reduction technologies.	U.S. EPA	\$8 million	December 6, 2024
<b>Tribal Home Electrification and Appliance Rebates</b>	This program will provide up to \$14,000 per eligible Tribal household for energy efficiency and electrification home upgrades. On November 17, 2023, DOE published its final formula for the program funding allocations.	DOE State Community Energy Programs (SCEP)	\$225 million	May 31, 2025
<b>Energy Efficiency and Conservation Block Grant Program for Indian Tribes</b>	This program provides funding to Tribes to meet energy efficiency goals including upgrading buildings, installing renewable energy equipment, or developing climate and clean energy plans. Funding through this program is noncompetitive and all Tribes have been allocated money. The only requirement is to apply to receive the funding.	DOE SCEP	\$8.8 million	May 31, 2025
<b>Tribal Energy Financing</b>	This program supports Tribal investment in energy-related projects by providing direct loans or partial loan guarantees. DOE can support a broad range of projects and activities for the development of energy resources, products, and services that utilize commercial technology.	DOE Loan Programs Office (LPO)	\$20 billion for loans or guarantees  \$80 million for associated costs	July 31, 2028
<b>Environmental Review Improvement Fund (ERIF) Tribal Assistance Program (TAP)</b>	This funding opportunity is designed to help Tribes build capacity when engaging in the environmental review and permitting process for infrastructure projects covered by the FAST-41 program. Funding can be used for several resources including additional staff for Tribal Historic Preservation Offices or natural resource offices, upgrading office equipment, training, and more.	Federal Permitting Improvement Steering Council (Permitting Council)	\$5 million	Ongoing
