LM-Form 4-20-2.0-0.3 Revision: December 2023

U.S. Department of Energy Office of Legacy Management

LM 20-24

NEPA Categorical Exclusion Determination Form

Program or Field Office: U.S. Department of Energy (DOE) Office of Legacy Management (LM)

Project Title: Transport Low Level and Mixed Low Level Radioactive Waste from the Grand Junction, Colorado, Disposal

Site to Waste Control Specialists

Location: Grand Junction, Colorado, Disposal Site

Proposed Action or Project Description:

DOE-LM is proposing to dispose of low-level radioactive waste (LLRW) and mixed LLRW (subject waste) stored at the Grand Junction, Colorado, Disposal Site (GJDS) to an offsite non-DOE facility, Waste Control Specialists (WCS), located in Andrews, Texas. WCS would be contracted to package, transport, and dispose of the subject waste to its facilities in Andrews, Texas. Legacy Management Support staff would submit an exemption request in accordance with DOE Manual 435.1-1 Chg. 3 (LtdChg), *Radioactive Waste Management Manual*, that would allow disposal of the waste at a non-DOE facility. The subject waste would be transported from the GJDS to the Andrews, Texas, facility for disposal in compliance with applicable U.S. Department of Transportation hazardous material transportation regulations at Title 49 *Code of Federal Regulations* Section 171–185 (49 CFR 171–185). WCS would use an approved carrier in DOE's Motor Carrier Evaluation Program for waste transportation services.

Categorical Exclusion(s) Applied:

- B1.30 Transfer Actions
- B3.1 Site Characterization and Environmental Monitoring

For the complete DOE National Environmental Policy Act (NEPA) regulations regarding categorical exclusions, including the full text of each categorical exclusion, see Subpart D of Title 10 Code of Federal Regulations Section 1021 (10 CFR 1021).

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D

To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

- ☑ There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.
- The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1501.9(e)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.1(g)(3)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of the proposed action, as NEPA Compliance Officer (as authorized by the LM Director per DOE Policy 451.1), I have determined that the proposed action fits within the specified classes of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.
