Categorical Exclusion Determination Form

Proposed Action Title: Decommission Building 235-F Using CERCLA Non-Time Critical Removal Action

Program or Field Office: Savannah River Site

Location(s) (City/County/State): Aiken/Aiken County/South Carolina

Proposed Action Description:

Building 235-F is a shutdown nuclear facility containing substantial radiological contamination. DOE has directed SRNS to decommission Building 235-F and thus reduce both the risk of release and the S&M cost associated with the building. Decommissioning will be via a CERCLA non-time critical removal (NTCRA) and in accordance with DOE Order 413.3, "Program and Project Management for the Acquisition of Capital Assets" and Section 5 ("Decommissioning") of Manual 1C. The end state for the decommissioning is "in-situ disposal", a term describing a facility end state after decommissioning in which a portion of the structure is not demolished, and any residual contamination has been permanently sealed in place. With respect to Building 235-F, the radiological contamination will be left in place, encapsulated in grout, and covered by a new concrete roof (over the existing 235-F roof). Additionally, the exterior walls will be sealed to prevent intrusion. The decommissioning includes the grouting/capping of an exterior underground storage tank (UST) and permanent sealing of a contaminated concrete stack.

Categorical Exclusion(s) Applied:

B1.28 PLACING A FACILITY IN AN ENVIRONMENTALLY SAFE CONDITION

For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, including the full text of each categorical exclusion, see Subpart D of [10 CFR Part 1021](#).

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

☒ The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D. To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

☒ There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

☒ The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of the proposed action, I have determined that the proposed action fits within the specified class(es) of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.
