

Wednesday, February 14, 2024

To: Jeremy Domm, U.S. Department of Energy

From: Eric Erdman, Greenheck Group

On Wednesday February 7th, 2024 members of the Greenheck Group met with members of the Department of Energy's Building Technology Office virtually to discuss the Proposed Efficiency Standard for Commercial Fans and Blowers, Docket # EERE-2022-BT-STD-0002. The topics discussed in the meeting were:

1. The selection of fan duty points and representative diameters
2. Seeking clarification on if the OEM equipment conversion cost assumptions from the CIF NODA 3 Engineering 2016-10-19_v3 document in docket # EERE-2013-BT-STD-0006 were included in the latest NOPR evaluation of if other values were used.

The following individuals virtually attended the meeting:

Ashley Armstrong, Department of Energy
Jeremy Domm, Department of Energy
Eric Erdman, Greenheck Group
Mike Wolf, Greenheck Group

Eric Erdman

Principal Regulatory & Compliance Engineer
Greenheck Group
