

## Tribal Energy Funding Opportunities

The U.S. Department of Energy (DOE) Office of Indian Energy Policy and Programs, DOE Offices, and other government entities provide funding and financing on a formula and competitive basis to support the development and deployment of energy infrastructure and technology on Tribal lands. From 2010 through 2024, DOE's Office of Indian Energy has invested over \$190 million in more than 240 Tribal energy projects implemented across the contiguous 48 states and in Alaska. These projects, valued collectively at over \$300 million, are leveraged by more than \$125 million in recipient cost-share.

### Current Funding Opportunities for Indian Tribes and Tribal Entities

For questions regarding a specific funding opportunity in this table, please contact the listed agency.

Title	Description	Agency	Amount	Deadline
<b>NOI for Energy Deployment on Tribal Lands – 2025</b>	<p>The Office of Energy issued a notice of intent to release a \$25 million funding opportunity this spring. Indian Tribes, Alaska Native Regional corporations and Village corporations, intertribal organizations, and Tribal energy development organizations are eligible to apply for funding to:</p> <ol style="list-style-type: none"> <li>1. Install energy generating system(s) and/or energy efficiency measure(s) for Tribal building(s)</li> <li>2. Deploy community-scale energy generating system(s) or energy storage on Tribal lands</li> <li>3. Install integrated energy system(s) for autonomous operation (independent of the traditional centralized electric power grid) to power a single or multiple essential Tribal building(s) during emergency situations or for Tribal community resilience</li> <li>4. Power unelectrified Tribal buildings.</li> </ol> <p>Awards will range from \$100,000 to \$2.5 million or from \$250,000 to \$5 million.</p>	DOE–Office of Indian Energy	\$25 million	TBD
<b>Tribal Clean Energy Planning and Development FOA</b>	DOE is soliciting applications for \$25 million in new funding to support the planning, assessment, and development of clean energy projects and anticipates making approximately 20-40 awards that range from \$100,000 to \$2,500,000.	DOE–Office of Indian Energy	\$25 million	Feb. 6, 2025
<b>Energy Improvements in Rural or Remote Areas – FY25</b>	This funding will spur innovative, community-focused, clean energy solutions for rural and remote communities with awards from \$2–\$50 million to help communities lead in developing tailored clean energy projects best suited for their unique needs.	DOE	\$400 million	Concept papers Feb. 27, 2025; Applications Aug. 28, 2025

Title	Description	Agency	Amount	Deadline
<b>High Energy Cost Grant</b>	This program assists energy providers, including Tribes and Tribal entities, in: lowering energy costs in communities with high energy costs; installing on-grid and off-grid renewable energy systems; making energy efficiency improvements.	USDA–Rural Development	\$10 Million	Feb. 28, 2025
<b>Rural Business Development Grant</b>	These grants support targeted technical assistance, training, and other activities that promote the development and expansion of small and emerging private businesses in rural areas.	USDA–Rural Development	\$10K–500K per grant	Feb. 28, 2025
<b>LASSO Prize</b>	This competition aims to bring solar developers, farmers, ranchers, and other stakeholders together to form teams; build pilot sites; identify best practices; and more.	DOE	\$8 million	Phase 1 applications due March 6, 2025
<b>Solid Waste Infrastructure for Recycling</b>	This program will fund high-impact projects to increase recycling, reduce contamination, and promote a circular economy for materials through investments in solid waste management infrastructure.	EPA	\$20 million	March 14, 2025
<b>Rural and Tribal Assistance Pilot Program</b>	This Notice of Funding Opportunity offers technical assistance grants to rural and Tribal communities for the planning and design phase development of transportation projects. There is no local funding match required.	DOT	\$27 Million	April 2, 2025
<b>Tribal Home Electrification and Appliance Rebates</b>	This program will provide up to \$14,000 per eligible Tribal household for energy efficiency and electrification. While funding is non-competitive, Tribes must apply to DOE for a grant before receiving funds.	DOE	\$225 million	May 31, 2025
<b>EECBG Grant Program for Indian Tribes</b>	This noncompetitive program provides funding to Tribes to meet energy efficiency goals including upgrading buildings, installing renewable energy equipment, or developing climate and clean energy plans.	DOE	\$8.8 million	May 31, 2025
<b>Tribal Energy Financing</b>	This program supports Tribal investment in energy-related projects by providing direct loans or partial loan guarantees. DOE can support a broad range of projects and activities for the development of energy resources, products, and services that utilize commercial technology.	DOE Loan Programs Office (LPO)	\$20 billion for loans or guarantees; \$80 million for costs	July 31, 2028
<b>Clean Bus Planning Awards</b>	This program reduces barriers to zero-emission bus deployment by providing school and transit bus fleets with free technical assistance to develop comprehensive and customized fleet electrification transition plans.	Joint Office	Technical assistance	Ongoing
<b>Low-Income Communities Bonus Credit Program</b>	This program, under §48(e) of the Internal Revenue Code promotes cost-saving clean energy investments in low-income communities, and on Indian land. Applications will be evaluated on a rolling basis.	IRS, DOE	N/A	Ongoing
<b>Environmental Review Tribal Assistance Program (TAP)</b>	This funding opportunity is designed to help Tribes build capacity when engaging in the environmental review and permitting process for infrastructure projects covered by the FAST-41 program	Federal Permitting Improvement Steering Council	\$5 million	Ongoing
