

NEPA Categorical Exclusion Determination Form

Program or Field Office: U.S. Department of Energy (DOE) Office of Legacy Management (LM)

Project Title: Non-Remedy-Related Routine and Non-Routine Activities at the Rocky Flats Site, Colorado

Location: Rocky Flats Site, Colorado

Proposed Action or Project Description:

LM is proposing to conduct non-remedy-related routine and non-routine activities associated with the maintenance and ongoing management of the Rocky Flats Site, Colorado, that are not included in or not considered to be part of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) remedy. As the long-term custodian of the site, LM would routinely maintain site conditions to support LM's goals of protecting human health and the environment and to sustainably manage and optimize the use of land and assets through administrative, inspection, maintenance, monitoring, and non-routine activities.

LM maintains the Site as part of CERCLA and Resource Conservation and Recovery Act regulations and requirements outlined within the Corrective Action Decision/Record of Decision for the Rocky Flats Plant. As part of LM's mission and other non-remedy-related requirements, LM conducts additional routine and non-routine activities onsite to maintain the protection of human health and the environment.

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

☒ The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D

To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

☒ There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

NEPA Categorical Exclusion Determination Form

- ☒ The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1501.9(e)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.1(g)(3)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of the proposed action, as NEPA Compliance Officer (as authorized by the LM Director per DOE Policy 451.1), I have determined that the proposed action fits within the specified classes of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.
