

The Better Plants Program works with leading manufacturers and water utilities to improve energy efficiency and competitiveness in the industrial sector.

PROGRAM IMPACT

2.8 QBTU
energy saved

1.8%
Average annual energy
intensity improvement rate

\$14.1 Billion
cost savings

270+ Partners

3,700+ Plants

Auto and transportation

Food

Consumer products

Chemicals

Metals and metal products

& more

PARTNERS BENEFIT FROM TECHNICAL EXPERTISE

Each partner is provided a Technical Account Manager who provides personalized help to develop energy management plans, identify energy-saving opportunities, and track energy performance metrics.

Expertise in **20+** focus areas

Including: Combined heat and power, compressed air, fans, lighting, motors, process cooling and HVAC, process heating, pumps, refrigeration, renewables, distributed generation and microgrids, steam, water, and building envelope and modeling.

100+
Years of Combined
Experience

Network & Share Best Practices with Industry Leaders

NO-COST SOFTWARE & TOOLS

Access no-cost software and tools to identify and implement energy saving opportunities and manage energy use.

TRAINING & EDUCATION

Over
200

In-Plant Trainings Conducted to Date

Multi-day training for staff to identify, implement, and replicate energy-savings projects.

31+

Virtual Trainings Conducted to Date

INNOVATION & LABS

17

National Labs Across the Country

Partner with the National Labs to spur innovation.

Lab Technology Days

Sneak peek at early-stage R&D technologies.

Field Validation

A new pilot for partners to accelerate the voluntary adoption of cost-effective, high-impact technologies while reducing adoption risks.

RECOGNITION

95 Better Project & Better Practice Winners

For innovative and industry-leading accomplishments in implementing and promoting company-wide practices, principles, and procedures of energy management, as well as improvement projects at individual facilities.
