[Docket No. 13-147-LNG]

Delfin LNG LLC; Request for Amendment of Long-Term Authorizations To Export Liquefied Natural Gas and for Additional Extension of Time To Commence Exports

AGENCY: Office of Fossil Energy and Carbon Management, Department of Energy.

ACTION: Notice of request.

SUMMARY: The Office of Fossil Energy and Carbon Management (FECM) (formerly the Office of Fossil Energy) of the Department of Energy (DOE), gives notice (Notice) of receipt of a request (Request), filed on May 2, 2025, by Delfin LNG LLC (Delfin). Delfin requests to amend its existing authorization to export domestically produced liquefied natural gas (LNG) to non-free trade agreement countries set forth in DOE/FE Order No. 4028, as amended, by extending the current commencement of export operations deadline from Delfin's proposed floating LNG (FLNG) liquefaction facility (Project) to June 1, 2031. Delfin also asks that its existing authorization be amended to reflect a facility redesign that includes three FLNG vessels instead of the original four. Delfin filed its Request under the Natural Gas Act (NGA) and DOE's regulations.

DATES: Protests, motions to intervene, or notices of intervention, as applicable,

and written comments are to be filed as detailed in the Public Comment Procedures section no later than 4:30 p.m., eastern time, July 7, 2025.

gas, which currently has or in the future develops the capacity to import LNG, and with which trade is not prohibited by U.S. law or policy (non-FTA countries). Delfin is authorized to export this LNG in a volume equivalent to 657.5 billion cubic feet per year of natural gas through December 31, 2050.³

On March 21, 2025, the U.S. Department of Transportation's Maritime Administration (MARAD) issued the license, under the Deepwater Port Act (DWPA), required for Delfin to own, construct, and operate its Project.⁴ According to Delfin, the DWPA license requires Delfin to "begin construction of the deepwater port no later than five years after the effective date of the license," but "the deadline may be extended for delays in necessary construction permits, delays due to time-of-year construction limitations beyond Delfin's direct control, or additional periods as MARAD may permit for good cause."⁵ Delfin notes that its DWPA license "does not mandate any timing deadline for completion of the Project."⁶

As relevant here, Order No. 4028, as amended, requires Delfin to commence export operations from the Project no later than June 1, 2029.⁷ In its Request, Delfin asks DOE to extend the deadline to commence commercial non-FTA LNG export operations from the Project by another two years, from June 1, 2029, to June 1, 2031.⁸

Delfin also asks for an amendment "to reflect the current design of its Project in accordance with the [DWPA] license," stating that the amendment would "reflect the refinements of Delfin's Project over time [and would] not require any change in the authorized volumes nor in any of the other Ordering Paragraphs."⁹ Specifically, "[t]o ensure that the export authorizations properly reflect the current Project design (as detailed to

MARAD prior to DWPA License issuance),” the amendment Delfin seeks would “reflect that the Project now includes three [FLNG vessels], with no change in the currently authorized export volumes.”¹⁰ (Emphasis in original).

In support of its Request, Delfin states that it obtained its DWPA license from MARAD in March 2025, with a five-year construction commencement deadline but no operation commencement deadline. Delfin requests that DOE amend Order No. 4028–D to require the commencement of exports using the planned facilities no later than June 1, 2031, with a configuration of three FLNG vessels. Delfin further identifies the actions it has taken to date to proceed with the construction and operation of its Project.
