U.S. Department of Energy Occupational Radiation Exposure Report User Survey

DOE, striving to meet the needs of its stakeholders, is looking for suggestions on ways to improve the *U.S. Department of Energy Occupational Radiation Exposure Report*. **Your feedback is important.** Constructive feedback will ensure this report can continue to meet user needs. Please fill out this survey form and return it to:

Kali Crosby
Office of Environment, Health, Safety and Security (EHSS)
DOE REMS Program Manager
U.S. Department of Energy
1000 Independence Avenue, SW
Washington, D.C. 20585-1290
Kali.Crosby@hq.doe.gov

Questions concerning this survey should be directed to Ms. Crosby.

Identification:

Name: _____

Title: _____

Mailing Address: _____

Distribution:

2.1 Do you wish to remain on the distribution for this report? ____ yes ____ no

2.2 Do you wish to be added to the distribution? ____ yes ____ no

Please circle one.

	Not Useful				Very Useful
Please rate the usefulness of this report overall:	1	2	3	4	5

Please circle one.

Please rate the usefulness of the analysis presented in the following sections:

	Not Useful			Very Useful	
Executive Summary	1	2	3	4	5
Analysis of Aggregate Data	1	2	3	4	5
Collective Dose	1	2	3	4	5
Average Measurable Dose	1	2	3	4	5
Dose Distribution	1	2	3	4	5
Analysis of Individual Dose Data	1	2	3	4	5
Doses in Excess of DOE limit (5 rem)	1	2	3	4	5
Doses in Excess of ACL limit (2 rem)	1	2	3	4	5
Intakes of Radioactive Material	1	2	3	4	5
Bioassay and Intake Summary Information	1	2	3	4	5
Analysis of Site Data	1	2	3	4	5
Collective TED by Site and Other Facilities	1	2	3	4	5
Activities Significantly Contributing to Collective Dose	1	2	3	4	5
Additional Site Descriptions	1	2	3	4	5
Summary by Program Office	1	2	3	4	5
Transient Individuals	1	2	3	4	5
Historical Data	1	2	3	4	5
ALARA and Operating Experience Programs	1	2	3	4	5
Conclusions	1	2	3	4	5

Please rate the importance of the timeliness of the publication of this report as it relates to your professional need for the information on occupational radiation exposure at DOE:

Not important			Critical	
1	2	3	4	5

Please provide any additional input or comments on this report.
