## Submitter Information

**Name:** Alejandra Grijalva

**Address:** Mexico,

---

## General Comment

We do NOT accept this project in our country, no amount of money can justify risking the health of the community of Puerto Libertad, without mentioning that this project will take away the local jobs like fishing affecting the main source of income or food to many houses. The most important thing is the health of the children, women, men and the elderly living in this location.

Secondly, we care about the lives of the animals living in the Gulf of California, whales should not suffer the consequences for a few greedy people that does not care about the people or the animals living in this area. DO NOT KEEP GOING WITH THIS NONSENSE ECOCIDE.
