## General Comment

This project will affect and probably eliminate an entire ecosystem that is a national treasure of Mexico, but also a natural treasure for the world.

Please do not allow the whales to be killed by boats, contamination to exterminate the reefs and natural wildlife.

Profits and money can be obtained by other means, but nature and ecosystems can not be created and recovered easily.

Our future as humans depends on the earth and these ecosystems need to be protected at all costs. Please help us protect them, and thanks for hearing us.
