General Comment

As an informed Mexican citizen, I wish to express my absolute refusal to allow Project Saguario to exist. The Gulf of Baja California and all its immense richness in biodiversity must be preserved intact, protected from any commercial, industrial or economic interests that might threaten its integrity. We should know by now how fragile and important ecosystems are. Project Saguario is yet another short-sighted destructive initiative of the kind that have brought the planet's biodiversity to the brink of extinction. It should be banned. We don't want it.

Thank you for your attention.

Sincerely,

Rosalía Nieto
