General Comment

I oppose the Saguaro Project because of all the negative impact it entails. Please, let's focus on the destruction, pollution, and death that come with this project, not the economic benefits it will generate. The Baja California Sur ocean, along with its vast marine biodiversity, must not become an unaccountable corporate experiment. Now is the time, in the midst of a climate crisis, to stop profiting from planet Earth and, with it, ending the lives of the innocent creatures that inhabit it.
