General Comment

We, the People from México, stand strongly and immovable against your imperialist government, that for centuries has robbed our lands, natural resouces, autonomy and freedom of living our lives without your capitalist thumb over us. We are sick tired of living under your conquerors rules, disguised as progress, and now being Wide open as the fascist dictatorship you've always been. The countries of the world, of the global South deserve their autonomy in every aspect, While you try to fix your own mess without any of us. The US/UK/Israel empires are the cancer of this planet, and you have to learn the Hard way that the color of your skin doesn't make you superiors, but the retrogrades ideas make you infinitely laughable, ridiculous and overall the worst kind of humans.
