Address:

Ensenada, Baja California, Mexico, 10000

General Comment

It is not fair that you guys in the US blame us for everything what's wrong in YOUR country for you to try now to establish something that's going to affect México and the US both equally terrible on the long run and way worse. The sea must and it will be protected by your governments and private companies because it is not another asset to your businesses and idolatry races. Nature and the habitat it surrounds it all must be preserved. Saguaro project is another evil machinery to destroy everything that has value in this world. Stop the massacre, free Palestine, stop the war on the environment with your industries that pollute and never pay the price, but the villagers and original people do. Enough is enough!
