General Comment

The saguaro project is nothing more than a form of destruction of biodiversity, this project will cause pollution that in turn will cause diseases in infants, adults and pregnant women, it will not bring any benefit to Mexico, we must take care of and protect the Gulf of California, as it is a world heritage site and home to 49% of marine species, we must think about the future not only of Mexico, but of the world.

Please, stop the Saguaro project, for the future of everyone.
