General Comment

I am writing to express my strong opposition to the SAGUARO project due to its potential for severe and irreversible harm to marine life and ecosystems. This project poses significant risks to biodiversity, water quality, and the delicate balance of our oceans. The disruption it may cause to marine habitats could have long-term consequences not only for wildlife but also for the communities that depend on these ecosystems for their livelihoods. I urge you to reconsider and prioritize sustainable alternatives that protect our natural resources for current and future generations.
