General Comment

I don't understand how a foreign company can use the name of our country for its own business when it clearly does not represent or respect our people or territory. It is outrageous that they take advantage of Mexico's name to carry out projects that pollute and harm our communities and ecosystems. This reflects a total lack of respect and improper appropriation.

I do not agree with wealthy individuals continuing to enrich themselves at the expense of natural resources that do not belong to them. How dare they contaminate territories where they do not even reside? And what about those of us who live here, the whales, and other marine species? It seems these people have no respect or consideration. No matter how wealthy they are, it is never enough for them. This attitude is deeply reprehensible."
