## General Comment

We don't need and we don't want the Saguaro Project in Mexico because it has terrible consequences for the economics of local people, as well as for marine fauna and health problems for the community. Because we know it has more benefits for others.

It benefits only those at the top, while those at the bottom would suffer the consequences of the climate impact.

We don't want foreign investment that damages the economic chain and affects more than half of the national fishing product.

In addition, mega-ships invade the natural habitat of whales and many other wildlife, around 30,000 species that could be at risk.

No somos zona de sacrificó

¡NO AL PROYECTO SAGUARO!
