TO EXPORT COMPRESSED NATURAL GAS TO CANADA BY TRUCK

DOE/FECM ORDER NO. 5332

SEPTEMBER 2, 2025

## I. **DESCRIPTION OF REQUEST**

On July 18, 2025, OPAL Fuels Station Services LLC (OPAL Fuels Station Services) filed an application with the Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)<sup>1</sup> for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on September 2, 2025. OPAL Fuels Station Services is a Delaware limited liability company with its principal place of business in White Plains, New York.

1. Import natural gas from Canada by pipeline at any point on the border between the United States and Canada
2. Export natural gas to Canada by pipeline at any point on the border between the United States and Canada
3. Import compressed natural gas (CNG) from Canada by truck at any CNG receiving facility in the United States and its territories
4. Export CNG to Canada by truck from any CNG departure facility in the United States and its territories

Import and export authority was requested for up to a combined total volume equivalent to 0.3 billion cubic feet (Bcf) of natural gas.

---

1. Authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FECM in Redelegation Order No. S4-DEL-FE1-2023, issued on April 10, 2023.

## II. **FINDING**

DOE has evaluated the application to determine if the proposed import and/or export arrangements meet the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including LNG, from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.<sup>2</sup> DOE must grant such applications without modification or delay.<sup>3</sup> DOE/FECM has determined that CNG falls within the statutory definition of natural gas.<sup>4</sup> The authorization sought by OPAL Fuels Station Services meets the NGA section 3(c) criteria and, therefore, is deemed to be consistent with the public interest.

### **ORDER**

Pursuant to section 3(c) of the NGA, it is ordered that:
