Docket No. EA-410-C

**APPLICATION OF CWP ENERGY, INC. FOR RENEWAL OF  
AUTHORITY TO TRANSMIT ELECTRIC ENERGY TO CANADA**

Pursuant to Section 202(e) of the Federal Power Act (“FPA”), 16 U.S.C. § 824a(e) and 10 C.F.R. § 205.300, *et seq.*, CWP Energy, Inc., a subsidiary of McGill-St. Laurent (“CWP Energy” or “Applicant”) hereby submits this application for a five-year extension of its blanket authorization to export electricity from the United States to Canada (“Renewal Application”). The Department of Energy (“DOE”) previously granted CWP Energy original authorization to export electric energy as a power marketer on June 23, 2015 in Order No. EA-410-A, which was most recently reauthorized on December 9, 2020 in Order No. EA-410-B. CWP Energy’s current export authorization expires on December 9, 2025. Accordingly, CWP Energy respectfully requests that this renewal application be granted as expeditiously as possible. CWP Energy respectfully requests authorization for renewal of authority to transmit electric energy from the United States to Canada for a period of five (5) years.

## **II. DESCRIPTION OF APPLICANT**

Applicant is a Canadian Corporation with its principal place of business in Montréal, Québec, Canada. CWP Energy is owned 88.4% by McGill-St. Laurent, 10.03% by Investissements AFA Inc, and 1.57% by Mr. Guillaume Desnoyers. McGill-St. Laurent is owned by two individuals, Mr. Phillipe Boisclair, as a majority owner, and Mr. Christian L'Abbe, as a minority owner. Mr. Boisclair and Mr. L'Abbe do not have any ownership interest or involvement in any other company that is a traditional utility or that owns, operates, or controls any electric generation, transmission or distribution facilities, nor do they have any direct involvement with the energy industry other than through the ownership of CWP Energy and its affiliates. Investissements AFA Inc. is owned by Mr. Alain Brisebois. Mr. Brisebois does not have any ownership interest or involvement in any other company that is a traditional utility or that owns, operates, or controls any electric generation, transmission or distribution facilities, nor does he have any direct involvement with the energy industry other than through his ownership, and in his capacity as President, of CWP Energy. Mr. Desnoyers also does not have any ownership interest or involvement in any other company that is a traditional utility or that owns, operates, or controls any electric generation, transmission or distribution facilities, nor does he have any direct involvement with the energy industry other than through his ownership, and in his capacity as Vice President, of CWP Energy.

CWP Energy is a FERC-authorized power marketer engaging in the purchase and sale of physical and/or virtual energy in the Day-ahead and Real-time Markets of various Independent

System Operators and Regional Transmission Organizations. CWP Energy applied for market-based rate authority on February 28, 2012 in FERC Docket No. ER12-1171-000. The application was approved by delegated letter order issued on April 3, 2012, attached hereto as Exhibit G. CWP Energy also holds authorization to export electric energy to Mexico. *See CWP Energy, Order Authorizing Electricity Exports to Mexico, Order No. EA-503 (Dec. 20, 2023).*

### **III. JURISDICTION**

CWP Energy believes that the U.S. Department of Energy (“DOE”) is the only governmental agency that has jurisdiction over this application.

### **IV. DESCRIPTION OF TRANSMISSION FACILITIES**

CWP Energy intends to export electricity over existing international transmission facilities between Canada and the United States, as identified in Exhibit C. CWP Energy requests authority to export electricity to Canada over any international transmission facility authorized by Presidential Permit that is appropriate for open access by third parties in accordance with the assessment made by DOE of the transmission limits for operation in the export mode.

### **V. TECHNICAL DISCUSSION OF PROPOSAL**

Section 202(e) of the Federal Power Act (“FPA”) and DOE’s regulations provide that exports should be allowed unless the proposed export would impair the sufficiency of electric power supply within the United States or would tend to impede the coordinated use of the United States power supply network.<sup>1</sup> CWP Energy seeks blanket authority to transmit electric power to Canada as a power marketer. CWP Energy has no electric power supply system on which the proposed exports could have a reliability, fuel use system or stability impact. CWP Energy also

---

<sup>1</sup> 16 U.S.C. § 824a(e).

has no obligation to serve native load usually associated with a franchised service area, and, thus, the exports proposed by CWP Energy will not impair its ability to meet current and prospective power supply obligations.

CWP Energy will purchase power to be exported from a variety of sources such as power marketers, independent power producers, or U.S. electric utilities and federal power marketing entities as those terms are defined in Sections 3(22) and 3(19) of the FPA. By definition, such power is surplus to the system of the generator and, therefore, the electric power that CWP Energy will export on either a firm or interruptible basis will not impair the sufficiency of the electric power supply within the U.S.<sup>2</sup>

CWP Energy will make all necessary commercial arrangements and will obtain any and all other regulatory approvals required in order to schedule and deliver power exports. All of the electricity exported by CWP Energy will be transmitted pursuant to arrangements with utilities that own and operate existing transmission facilities and will be consistent with the export limitations and other terms and conditions contained in the existing Presidential Permits and electricity export authorizations associated with these transmission facilities. CWP Energy will schedule its transactions with the appropriate balancing authority areas in compliance with the reliability criteria standards and guidelines established by the North American Reliability Corporation (“NERC”) and its member regional councils in effect at the time of the export.

In previous orders granting export authorization to electric power marketers, DOE declined to rigidly apply the information filing requirements contained in its regulations and instead used a flexible approach which takes into consideration the unique nature of power marketers, the requirements of FERC Order No. 888 and previously authorized export limit of cross-border

<sup>2</sup> See *Enron Power Marketing, Inc.*, Order EA-102 (1996).

facilities.<sup>3</sup> These same considerations demonstrate that the exports proposed by CWP Energy will not impair or tend to impede the sufficiency of electric supplies in the U.S. or the regional coordination of electric utility planning or operations.

## **VI. COMPLIANCE WITH CONDITIONS AND PROCEDURES**

CWP Energy proposes to abide by the general conditions consistent with DOE's previous grants of authorizations to power marketers as set forth in its previous orders, as described herein. From time to time, CWP Energy will enter into agreements with third parties which involve the export of electric power from the United States into Canada. Exports made by CWP Energy will not exceed the export limits for the facilities or otherwise cause a violation of the terms and conditions set forth in the export authorizations for each. With regard to specific transactions, CWP Energy will provide written evidence to DOE that it has secured sufficient transmission service for the delivery of power to the border. When scheduling the delivery of power, CWP Energy will comply with the applicable NERC reliability standards. For each calendar year, CWP Energy will provide DOE with reports indicating the gross amount of electricity delivered to Canada, consideration received during each month, and the maximum hourly rate of transmission, as well as any additional annual reports.

## **VII. VERIFICATION, REQUIRED COPIES, AND FEE**

Verification executed by CWP Energy's authorized representative in accordance with 10 C.F.R. § 205.302(h) is enclosed with the Application. In accordance with the requirements of 10 C.F.R. § 205.307, and DOE's directions, an electronic copy of the Application is being provided

**Re: Application of CWP Energy Inc. for Renewal of Authorization to Export Electricity (the “Application”)**

---

Dear Mr. Elliott, Ms. Skučas,

This opinion letter (the “**Letter**”) regarding the corporate power of CWP Energy Inc. (the “**Corporation**”) to export electricity from the United States to Mexico (the “**Proposed Activities**”) is being delivered to you pursuant to 10 C.F.R. § 205.303(b) and in connection with the Application.

**1. Scope and Examinations**

- 1.1 In connection with the opinions expressed in this Letter, we have examined such corporate records (including the Corporation’s articles and by-laws), certificates and other documents and conducted such examinations as we considered necessary for the purpose of the opinions expressed in this Letter.

**2. Jurisdiction**

- 2.1 We are lawyers qualified to practice law in the Province of Québec and we express no opinion as to any laws or any matters governed by any laws other than the laws of the Province of Québec and the federal laws of Canada applicable therein.

**3. Assumptions and Reliances**

- 3.1 In connection with our opinions, we have, with your concurrence, made the following assumptions:
- (a) with respect to all documents examined by us, all signatures are genuine, all individuals signing such documents have legal capacity, all documents submitted to us as originals are authentic and complete, all documents submitted to us as copies, whether facsimile, photostatic, electronic, certified or otherwise, are

conform to their authentic original documents and the identity of all individuals acting or purporting to act as public officials is authentic; and

- (b) all facts set forth in the certificates supplied, or otherwise conveyed to us, by the officers and directors of the Corporation and all documents, instruments and certificates contained in the corporate records and minute books of the Corporation as provided by the Corporation are complete, true, accurate and current.

#### 4. Opinions

On the basis of the foregoing and subject to the qualifications herein expressed, we are of the opinion that:

- 4.1 The Corporation has the corporate power to perform the Proposed Activities contemplated by the Application. The Proposed Activities have been duly authorized by all necessary corporate action on the part of the Corporation.
- 4.2 The Corporation's performance of the Proposed Activities does not violate, result in a breach of, or constitute a default under the articles or by-laws of the Corporation.

#### 5. Qualifications

- 5.1 The opinions in this Letter are given solely for the benefit of C&M and DOE in connection with the Application and as such may not, in whole or in part, be relied upon by, or shown or distributed to, any other person, nor quoted from or referred to in any other document, without our prior written consent.
- 5.2 Our opinions are given as of the date of this Letter; among other things, our opinions do not take into account any circumstance (including changes in law or facts or the conduct of any of the parties to the Proposed Activities or the Application) that may occur after that date and we can give no assurance that a transaction that occurs after the date of this Letter will not be affected by future changes to the law. We expressly disclaim any obligation or undertaking to advise any persons to whom this Letter is addressed, or any other persons entitled to rely on this Letter, of any matters or any change in matters (including, without limitation, any facts or circumstances or any subsequently enacted, published or reported laws, regulations or judicial decisions having retroactive effect) which may come to our attention after the date of this Letter and which may affect any of our opinions.

Reference: Market-Based Rate Authorization

Dear Ms. Smoots:

On February 28, 2012, you filed on behalf of Canadian Wood Products-Montreal Inc. (CWP Energy) an application for market-based rate authority with an accompanying tariff. The proposed market-based rate tariff provides for the sale of energy, capacity, and ancillary services at market-based rates.<sup>1</sup> CWP Energy requests waivers commonly granted to similar market-based rate applicants.

Your filing was noticed on February 28, 2012, with comments, protests or interventions due on or before March 20, 2012. None was filed.

Pursuant to the authority delegated to the Director, Division of Electric Power Regulation - West, under 18 C.F.R. § 375.307, your submittal filed in the referenced docket is accepted for filing, effective February 29, 2012, as requested. Based on your

(NYISO), ISO New England Inc. (ISO-NE), California Independent System Operator Corp. (CAISO), and Midwest Independent Transmission System Operator, Inc. (MISO). CWP Energy also requests authorization to engage in the sale of certain ancillary services as a third-party provider in other markets.

representations, CWP Energy meets the criteria for a Category 1 seller in all regions and is so designated.<sup>2</sup>

You state that CWP Energy is located in Montreal, Canada, and intends to act as a power marketer. You further represent that CWP Energy is wholly owned by two individuals, and is not affiliated with any entity that owns or controls generation or transmission facilities. Further, you affirmatively state that CWP Energy has not erected barriers to entry and will not erect barriers to entry into the relevant market.

You state that CWP Energy meets the criteria for Category 1 seller status in all regions. You represent that neither CWP Energy nor any of its affiliates own or control any generation or transmission facilities. You also represent that CWP Energy and its affiliates are not affiliated with any franchised public utility, and do not raise any other vertical market power concerns.

### **Market-Based Rate Authorization**

The Commission allows power sales at market-based rates if the seller and its affiliates do not have, or have adequately mitigated, horizontal and vertical market power.<sup>3</sup>

Based on your representations, CWP Energy's submittal<sup>4</sup> satisfies the Commission's requirements for market-based rate authority regarding horizontal and vertical market power.
