# PORTSMOUTH SITE SPECIFIC ADVISORY BOARD ANNUAL WORK PLAN Fiscal Year 2026

This SSAB Work Plan has been agreed upon by  
U.S. Department of Energy and the Portsmouth Site Specific Advisory Board on September 16, 2025.

## **INTRODUCTION**

The Portsmouth Gaseous Diffusion Plant (PORTS) Site Specific Advisory Board (SSAB) is a stakeholders' board, chartered to provide advice and recommendations to the U.S. Department of Energy (DOE) on decontamination and decommissioning, environmental remediation, waste management, and related issues at the Portsmouth Site. The Portsmouth/Paducah Project Office (PPPO) manages the Environmental Management (EM) activities in Portsmouth.

The SSAB is comprised of volunteers, chosen to reflect the viewpoints and interests of persons living near the Portsmouth Site. The board is committed to reflecting the communities impacted by the environmental management of the plant site. Besides DOE, the Ohio Environmental Protection Agency (OEPA) and the Ohio Department of Health (ODH) are represented in an liaison/advisory capacity.

The scope of the SSAB is to provide advice and recommendations concerning the following EM site-specific issues: clean-up activities and environmental restoration; waste and nuclear materials management and disposition; excess facilities; future land use and long-term stewardship. The Board may also be asked to provide advice and recommendations on any EM program components, such as risk assessments, communications, and funding priorities.

The Board meets to about environmental management activities, listen to input from citizens, consider recommendations developed by the PORTS SSAB subcommittees, and perform other business. The Board strives for consensus in reaching decisions and conducts business under the Federal Advisory Committee Act, DOE Order 515.1, board bylaws, standing rules, and special rules of order, which incorporate the principles of *Robert's Rules of Order*.

Most months SSAB members participate in subcommittees to focus on various topics related to site cleanup and draft recommendations for consideration by the full board. PORTS SSAB will establish an Executive Subcommittee to help with updating Board Operating Procedures, membership recruitment efforts, and the annual funding request recommendations.

This Work Plan addresses the SSAB priorities for the 2026 Fiscal Year. Although the Board intends to structure its activities to focus on the priority projects, it is understood that other topics may present themselves that could result in deviation from the Work Plan. A prescribed process is followed to alter the SSAB work plan with alterations accepted and approved by both the SSAB and DOE.

## **SSAB FULL BOARD MEETINGS**

PORTS SSAB full board meetings are intended to communicate the business of the SSAB and to discuss and vote on recommendations to be submitted to DOE. In addition, Deputy Designated Federal Official (DDFO) comments will be made in the form of a presentation intended to brief SSAB members of recent developments and provide site highlights and accomplishments.

The full board may also convene for educational presentations that complement the working session or site management matters. Examples of suggested topics for presentations may include the annual budget process and risk education.

The planned full board meeting dates for FY 2026 are below. These dates are subject to change and will be posted on the PORTS SSAB website.
