

CATEGORICAL EXCLUSION DETERMINATION

Proposed Action Title: Vernal-Hayden 138-kV Transmission Line Emergency Structure Replacements

Location: Moffat County, Colorado

Project Number: 2025-050

Expiration Date: October 30, 2025

A. PROPOSED ACTION DESCRIPTION:

Western Area Power Administration (WAPA), Rocky Mountain Region (RMR), conducted emergency structure replacements on its existing Vernal-Hayden (VNL-HDN) 138-kV Transmission Line, in Moffat County, Colorado. These emergency structure replacements were completed on Structures 62-6, 62-7, 63-2, and 63-3 in August 2025, following damage from a wildland fire. Structure replacement activities included removal of the damaged structures, re-auguring the existing structure holes, installation of the new wood structures, backfilling the structure holes, and installation of new hardware. The new transmission structures have minor structural updates to meet current WAPA design standards but are visually similar to the original structures. Equipment used for this project included bucket trucks, tracked auger and crane trucks, skid-steer loaders, excavator, utility trucks, pole trailers, and equipment trailers. Work was confined to WAPA's right-of-way (ROW) on private lands and public lands managed by the Bureau of Land Management-White River Field Office. The ROW was accessed by existing access routes; no new road construction occurred.

B. STIPULATIONS PERTAINING TO PROPOSAL:

This Categorical Exclusion (CX) covers work that has already been completed. No further work is authorized under this CX. If additional work is required, RMR's Environment Department must be contacted to determine whether additional environmental review is required.

☒ The proposal fits within a class of actions that is listed in Appendix B to 10 CFR Part 1021 or Appendix B and C of DOE's NEPA Implementing Procedures (June 30, 2025).

To fit within the classes of actions listed in Appendix B to 10 CFR Part 1021, or Appendix B of DOE's NEPA Implementing Procedures, a proposal must satisfy the conditions that are integral elements of the classes of actions in Appendix B of both 10 CFR Part 1021 and DOE's NEPA Implementing Procedures.
