Subject: [EXTERNAL] Advocate for US LNG Independence: Deny Saguaro Permit Extension
Date: Wednesday, December 17, 2025 6:45:09 PM

Hello Department of Energy Team,

I'm reaching out to express the vital importance of rejecting Mexico Pacific Limited's permit extension for the Saguaro LNG facility. Supporting American interests means prioritizing our own energy independence and economic growth.

****Protecting Our Economy:****

Allowing LNG exports to Asia risks diverting resources that should bolster American industries. This project could undermine investment in our Gulf Coast infrastructure and redirect crucial natural gas from the Permian Basin to foreign markets.

****Securing Our Energy:****

By focusing on Mexican terminals, we compromise U.S. energy independence. Committing Permian gas abroad weakens our strategic position, particularly against strong competitors like China.

****Legal Concerns:****

There are significant legal issues in Mexico, including unauthorized permits and ongoing lawsuits, casting doubt on the project's legitimacy.

****Our Call to Action:****

Denying this extension is crucial. It prevents the waste of U.S. energy resources on foreign initiatives and safeguards our strategic interests.

Let's champion our Gulf Coast facilities and ensure American energy security.

Sincerely,
Ivy Alvarado
