Subject: [EXTERNAL] Protecting American Energy: Oppose Saguaro LNG Export Permit Extension
Date: Wednesday, December 17, 2025 2:04:55 PM

Dear U.S. Department of Energy,

I urge you to reject the proposed seven-year extension for Mexico Pacific Limited's Saguaro LNG export facility. This decision is vital for safeguarding U.S. economic and strategic interests.

****Economic Impact:****

Exporting LNG to Asian markets undermines U.S. gas production meant for domestic use, competing with Gulf Coast facilities and diverting resources from American energy infrastructure.

****Energy Security Risk:****

The project favors Mexican terminals over U.S. energy independence, committing Permian Basin resources to foreign markets and strengthening competitors like China.

****Legal Concerns in Mexico:****

The permit extension faces significant legal challenges, including illegal modifications and judicial suspensions, questioning its validity.

****Recommendation:****

Please deny the extension. Supporting this project jeopardizes U.S. resources and strategic interests. It's crucial to prioritize American LNG development rather than subsidize foreign facilities.

Thank you for your attention to this critical matter.

Respectfully,

Michelle Casey
