Subject: [EXTERNAL] Protecting U.S. Interests: Reconsider Saguaro LNG Permit Extension
Date: Wednesday, December 17, 2025 7:37:29 AM

Dear U.S. Department of Energy,

I urge you to reconsider granting Mexico Pacific Limited an extension for the Saguaro LNG export facility. Allowing this would not only undermine U.S. business interests but also compromise our energy security.

****Economic Impact:****

- LNG exports to Asia divert essential U.S. natural gas that could better serve domestic needs.
- This move supports foreign infrastructure over our own, impacting U.S. Gulf Coast investments.

****Energy Security Concerns:****

- Prioritizing Mexican terminals threatens our energy independence.
- It strengthens foreign competitors, particularly in Asia, at the expense of American interests.

****Legal Considerations:****

- Mexico's authorization process is fraught with legal issues, including ongoing lawsuits and lack of proper environmental procedures.

****Recommendation:****

Refuse the extension. Investing in our own infrastructure is crucial for national interests and energy security.

Thank you for considering these important points.

Respectfully,
