Subject: [EXTERNAL] Safeguard Our Energy Future: Act Now Against Permit Extension
Date: Wednesday, December 17, 2025 11:14:54 AM

Dear U.S. Department of Energy,

The time is now to take a decisive stand in prioritizing our national interests. We strongly urge you to deny the extension for the Saguaro LNG export permit requested by Mexico Pacific Limited. This action is crucial to protect our economic and strategic energy futures.

****Protecting the U.S. Economy:****

- Redirect our natural gas to benefit American consumers and industries, rather than facilitating exports to Asia.
- Bolster investment into U.S. Gulf Coast LNG facilities instead of diverting resources to foreign markets.

****Securing Energy Independence:****

- Maintain our energy autonomy by keeping our Permian gas within the U.S.
- Avoid strengthening our competitors at the cost of our own strategic position.

****Legal and Environmental Concerns:****

- The project faces definitive suspensions and ongoing legal challenges in Mexico.
- The current Mexican administration has not granted the necessary environmental authorizations.

By denying this extension, you will not only safeguard American energy resources but also support projects with solid legal and environmental foundations.

Let's champion our Gulf Coast infrastructure and reinforce our energy independence.

Thank you for your attention to this pressing matter.

Respectfully,

Sébastien Arcaya

Sébastien Arcaya.
