Proposed Action Title: Emergency Vegetation Management on the Curecanti – Crystal 115-kV Transmission Line

Location: Montrose County, CO

Project Number: 2025-055

Expiration Date: November 30, 2025

A. PROPOSED ACTION DESCRIPTION:

Western Area Power Administration (WAPA), Rocky Mountain Region (RMR), conducted emergency mechanical vegetation management on its existing Curecanti-Crystal (CCI-CRY) 115-kV Transmission Line, in Montrose County, Colorado. This emergency Right-of-Way (ROW) vegetation management was completed between structures 8/4 to 10/7 on July 14, 2025 in an effort to protect transmission line infrastructure from the encroaching South Rim wildfire. Activities included mechanical treatment of vegetation within the 75 foot wide ROW. Equipment used for this project included masticators, skid-steer loaders with brush-hog attachments, pickup trucks and ATVs. Work was confined to WAPA's right-of-way (ROW) on private lands, and public lands managed by the National Park Service – Black Canyon of the Gunnison National Park. The ROW was accessed by existing access routes; no new road construction occurred.

B. STIPULATIONS PERTAINING TO PROPOSAL:

This Categorical Exclusion (CX) covers work that has already been completed. No further work is authorized under this CX. If additional work is required, RMR's Environment Department must be contacted to determine whether additional environmental review is required.
