V. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. Existing stocks are those stocks of registered pesticide products which are currently in the United States, and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provisions for the products subject to this order are as follows.

The registrants may continue to sell and distribute existing stocks of the products listed in Table 1 of Unit II, until March 29, 2027, which is 1 year after the publication of the Cancellation Order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing the products listed in Table 1 of Unit II, except for export in accordance with FIFRA section 17 (7 U.S.C. 136o), or proper disposal.

People other than the registrant may sell, distribute, or use existing stocks of products listed in Table 1 of Unit II, until existing stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

FPPS is a major application that consists of several minor applications to include time and attendance applications, a system for creating retirement cards and updating retirement records, a system for converting client data for integration into FPPS. The purpose of this system is to ensure proper payment of salary and benefits to EXIM personnel, and to track time worked, leave, or other absences for reporting and compliance purposes.
