NAVERGY INFRASTRUCTURE PARTNERS LLC) DOCKET NO. 26-16-LNG
)

ORDER GRANTING LONG-TERM AUTHORIZATION
TO EXPORT LIQUEFIED NATURAL GAS TO FREE TRADE AGREEMENT NATIONS,
AND LONG-TERM AUTHORIZATION FOR SMALL-SCALE EXPORTS
OF LIQUEFIED NATURAL GAS

DOE/HGEO ORDER NO. 5419

MAY 22, 2026

I. INTRODUCTION

On February 9, 2026, NAVERGY INFRASTRUCTURE PARTNERS LLC (Navergy) filed an Application¹ with the Department of Energy's (DOE) Hydrocarbons and Geothermal Energy Office under section 3 of the Natural Gas Act (NGA),² requesting long-term, multi-contract authorization³ to export domestically produced liquefied natural gas (LNG). On April 28, 2026, Navergy submitted a Supplement to the Application to provide a list of ports from which it may export LNG.⁴ Navergy requests authorization to export LNG as follows:

- (i) Under section 3(c) of the NGA, to any country with which the United States currently has a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries),⁵ and
- (ii) Under section 3(a) of the NGA, to any country with which trade is not prohibited by U.S. law or policy (non-FTA countries).⁶

¹ NAVERGY INFRASTRUCTURE PARTNERS LLC, Application for Long-Term, Multi-Contract Authorization to Export Liquefied Natural Gas to Free-Trade Agreement and Non-Free Trade Agreement Nations, Docket No. 26-16-LNG (Feb. 9, 2026) [hereinafter App.].

² 15 U.S.C. § 717b. On November 20, 2025, the Office of Fossil Energy and Carbon Management (FECM) changed its name to the Hydrocarbons and Geothermal Energy Office (HGEO). The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA has been delegated to the Assistant Secretary for FECM (now the Assistant Secretary for HGEO) in Redelegation Order No. S4-DEL-FE1-2023, issued on April 10, 2023.

³ Navergy also requests authority to engage in short-term exports of LNG. Long-term authorizations issued by DOE now include authority to export the same approved volume of LNG pursuant to short-term contracts (*i.e.*, transactions with terms of less than two years) on a non-additive basis. *See* U.S. Dep't of Energy, Including Short-Term Export Authority in Long-Term Authorizations for the Export of Natural Gas on a Non-Additive Basis, 86 Fed. Reg. 2243 (Jan. 12, 2021); *see also infra* § VII (Ordering Para. A).

⁴ NAVERGY INFRASTRUCTURE PARTNERS LLC, Supplement to Application for Long-Term Multi-Contract Authorization to Export Liquefied Natural Gas to Free-Trade and Non-Free Trade Agreement Nations, Docket No. 26-16-LNG (Apr. 28, 2026) [hereinafter Supp. App.].

⁵ 15 U.S.C. § 717b(c). The United States currently has FTAs requiring national treatment for trade in natural gas with Australia, Bahrain, Canada, Chile, Colombia, Dominican Republic, El Salvador, Guatemala, Honduras, Jordan, Mexico, Morocco, Nicaragua, Oman, Panama, Peru, Republic of Korea, and Singapore. FTAs with Israel and Costa Rica do not require national treatment for trade in natural gas.

⁶ *Id.* § 717b(a); *see also* App. at 1.

Navergy states that its proposed non-FTA exports would qualify as “small-scale natural gas exports” under DOE’s regulations at 10 C.F.R. §§ 590.102(p) and 590.208(a), and therefore should be deemed to be consistent with the public interest under NGA section 3(a).⁷

Navergy seeks to export LNG in a total volume equivalent to 51.75 billion cubic feet (Bcf) per year (Bcf/yr), or 0.14 Bcf per day (Bcf/d), of natural gas.⁸ Navergy states that it seeks to purchase this LNG from small-scale liquefaction and peaking facilities. Specifically, in the updated Appendix C in the Supplement to the Application, Navergy identifies eight existing facilities in the United States from which it seeks to source LNG for export, as well as the applicable ports of export (collectively, the Facilities).⁹ Navergy requests to transport the LNG in approved International Organization for Standardization (ISO) containers by barge or road to existing ports handling ISO containers, and then export this LNG in those ISO containers loaded onto ocean-going container vessels to emerging markets in locations including, but not limited to, the Caribbean, Central America, and South America.¹⁰

Navergy requests that its long-term authorization “commence effective upon the issuance of the authorizing order” and extend through December 31, 2050.¹¹ Additionally, Navergy requests authority to export the LNG on its own behalf and as agent for other entities that hold title to the LNG at the time of export.¹²

⁷ See App. at 6; see also U.S. Dep’t of Energy, Small-Scale Natural Gas Exports; Final Rule, 83 Fed. Reg. 35106 (July 25, 2018) [hereinafter Small-Scale Rule].

⁸ App. at 2, 4, 6, 8.

⁹ Supp. App. at Appendix C. Navergy states that, to the extent it seeks to acquire LNG from facilities that are not included in Appendix C, Navergy will amend the App. to include such facilities. App. at 3; see also *infra* § VII (Ordering Para. A & note 37).

¹⁰ App. at 3.

¹¹ *Id.* at 4-5.

¹² *Id.* at 5.

In this consolidated Order, DOE grants Navergy’s Application, as supplemented, and authorizes the requested export volume of 51.75 Bcf/yr (0.14 Bcf/d) to both FTA and non-FTA countries on a non-additive basis. Specifically, DOE finds that the FTA portion of the Application falls within NGA section 3(c), and we therefore grant the requested FTA authorization without modification or delay.¹³ DOE also finds that the proposed non-FTA exports qualify as “small-scale natural gas exports” under the criteria set forth in 10 C.F.R. § 590.102(p). Accordingly, we grant the small-scale portion of the Application under 10 C.F.R. § 590.208(a).

This Order, however, does not provide Navergy with an independent right to purchase or load LNG at any of the Facilities. DOE takes no position on the commercial arrangements that may be necessary for Navergy to effectuate the export of LNG approved in this Order.

II. BACKGROUND

Applicant. Navergy is a limited liability corporation organized and existing under the laws of the Republic of the Marshall Islands with its principal place of business in Houston, Texas.¹⁴ Navergy describes itself as “a partnership owned by COOK NAUTICAL SERVICES LLC, MAGPIE ENERGY LLC and HERMES ENERGY LLC.”¹⁵

Liquefaction Facilities and Transport. Navergy states that it intends to export domestically produced LNG received from the eight facilities and the applicable ports of export identified in the updated Appendix C provided in the Supplement to the Application.¹⁶ Navergy also states that it will “transport the LNG in approved ISO containers by barge or by road using Department of Transportation (“DOT”)-approved highway trailers from the facilities in Appendix

¹³ 15 U.S.C. § 717b(c).

¹⁴ App. at 4.

¹⁵ *Id.*

¹⁶ See Supp. App. at Appendix C.

C to existing ports handling ISO containers” and will “load the ISO containers onto ocean-going container vessels” for export.¹⁷

Source of Supply. Navergy states that the source of the proposed exports is expected to be the “vast natural gas supply produced throughout the United States and delivered . . . through the integrated natural gas pipeline grid.”¹⁸

Business Model. Navergy requests authorization to export LNG on its own behalf and as agent for other entities that hold title to the LNG at the time of export.¹⁹ Navergy states that it will file, or cause to be filed, all long-term commercial agreements, once executed, in accordance with DOE’s established policy, and will comply with all DOE requirements for exporters and agents, including registration requirements.²⁰

III. STANDARD OF REVIEW

A. FTA Authorization

Section 3(c) of the NGA was amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). In relevant part, applications to export natural gas, including LNG, to countries with which there is an FTA in effect requiring national treatment for trade in natural gas “shall be deemed to be consistent with the public interest” and granted “without modification or delay.”²¹

B. Small-Scale Authorization

DOE defines a “small-scale natural gas export” as an export of natural gas, including LNG, to a non-FTA country that meets the following two criteria:

¹⁷ App. at 3.

¹⁸ *Id.*

¹⁹ *Id.*

²⁰ *Id.* at 5, 7-8.

²¹ 15 U.S.C. § 717b(c).

- (1) The application proposes to export natural gas in a volume up to and including 51.75 billion cubic feet per year, and
- (2) DOE's approval of the application does not require an environmental impact statement (EIS) or an environmental assessment (EA) under the National Environmental Policy Act, 42 U.S.C. 4321 *et seq.*²²

Small-scale natural gas exports are deemed to be consistent with the public interest under NGA section 3(a).²³ Therefore, DOE will issue an export authorization upon receipt of a complete application to conduct small-scale natural gas exports.²⁴

IV. DISCUSSION AND CONCLUSIONS

A. FTA Authorization

We find that the FTA portion of Naverger's Application, as supplemented, falls within NGA section 3(c), and therefore we grant the requested FTA authorization without modification or delay.²⁵

B. Small-Scale Authorization

We find that the non-FTA portion of the Application, as supplemented, meets the criteria for small-scale natural gas exports, set forth in 10 C.F.R. § 590.102(p). First, Naverger requests authority to export LNG to non-FTA countries in a volume equivalent to 51.75 Bcf/yr of natural gas, which is consistent with the limit in the regulation. Second, DOE's procedures for the National Environmental Policy Act of 1969 (NEPA)²⁶ provide for a categorical exclusion if neither an EA nor an EIS is required. Specifically, DOE has determined that categorical exclusion B5.7, *Export of natural gas and associated transportation by marine vessel*, applies to

²² 10 C.F.R. § 590.102(p).

²³ *Id.* § 590.208(a).

²⁴ *Id.*; *see also* Small-Scale Rule, *supra* note 7.

²⁵ DOE further finds that the requirements for public notice of applications and other hearing-type procedures in 10 C.F.R. Part 590 are applicable only to applications seeking to export natural gas, including LNG, to non-FTA countries (other than applications for small-scale exports of natural gas, *see* 10 C.F.R. § 590.208(a)).

²⁶ 42 U.S.C. § 4321 *et seq.*

this proceeding.²⁷ On May 21, 2026, DOE issued a categorical exclusion determination for the non-FTA portion of Navergy’s Application under this provision.²⁸ Accordingly, pursuant to 10 C.F.R. § 590.208(a), the proposed small-scale exports are deemed to be consistent with the public interest under NGA section 3(a), and DOE grants the requested authorization.

V. FINDINGS

Based on the findings and conclusions herein, DOE grants the Application, as supplemented, subject to the Terms and Conditions and Ordering Paragraphs set forth below.

VI. TERMS AND CONDITIONS

A. Term of the Authorization

Navergy requests that its FTA and small-scale non-FTA authorizations commence on the date of an order granting such authorization and end on December 31, 2050.²⁹ Accordingly, the term for this authorization will commence on the date this order is issued and extend through December 31, 2050.

B. Commencement of Operations for Small-Scale Authorization

DOE will add as a condition of the small-scale authorization that Navergy must commence commercial LNG export operations no later than two years from the date of issuance of this Order. Because this Order allows for exports to begin from an existing facility, we find that Navergy should be able to commence small-scale exports of LNG immediately.

²⁷ See 10 C.F.R. Part 1021, Subpt. D, App. B, Categorical Exclusion B5.7. This categorical exclusion amended the prior B5.7 categorical exclusion. *See generally* U.S. Dep’t of Energy, National Environmental Policy Act Implementing Procedures; Final Rule, 85 Fed. Reg. 78197 (Dec. 4, 2020).

²⁸ U.S. Dep’t of Energy, Categorical Exclusion Determination, NAVERGY INFRASTRUCTURE PARTNERS LLC, Docket No. 26-16-LNG (May 21, 2026).

²⁹ App. at 4-5.

C. FTA Countries for FTA Authorization

The countries with which the United States has an FTA requiring national treatment for trade in natural gas are currently: Australia, Bahrain, Canada, Chile, Colombia, Dominican Republic, El Salvador, Guatemala, Honduras, Jordan, Mexico, Morocco, Nicaragua, Oman, Panama, Peru, Republic of Korea, and Singapore.

D. Transfer, Assignment, or Change in Control

DOE's natural gas regulations prohibit authorization holders from transferring or assigning authorizations to import or export natural gas without specific authorization by the Assistant Secretary for the Hydrocarbons and Geothermal Energy Office.³⁰ DOE has found that this requirement applies to any change in control of the authorization holder. This condition was deemed necessary to ensure that DOE will be given an adequate opportunity to assess the public interest impacts of such a transfer or change.

DOE construes a change in control to mean a change, directly or indirectly, of the power to direct the management or policies of an entity, whether such power is exercised through one or more intermediary companies or pursuant to an agreement, written or oral, and whether such power is established through ownership or voting of securities, or common directors, officers, or stockholders, or voting trusts, holding trusts, or debt holdings, or contract, or any other direct or indirect means.³¹ A rebuttable presumption that control exists will arise from the ownership or the power to vote, directly or indirectly, 10% or more of the voting securities of such entity.³²

³⁰ 10 C.F.R. § 590.405.

³¹ See U.S. Dep't of Energy, Procedures for Changes in Control Affecting Applications and Authorizations to Import or Export Natural Gas, 79 Fed. Reg. 65541-65542 (Nov. 5, 2014).

³² See *id.*

E. Agency Rights

Navergy requests authorization to export LNG on its own behalf and as agent for other entities that hold title to the LNG at the time of export. DOE previously has determined that, in LNG export orders in which Agency Rights have been granted, DOE shall require registration materials filed for, or by, an LNG title-holder (Registrant) to include the same company identification information and long-term contract information of the Registrant as if the Registrant had filed an application to export LNG on its own behalf.³³

To ensure that the public interest is served, this authorization requires that, where Navergy proposes to export LNG as agent for other entities that hold title to the LNG (Registrants), it must register those entities with DOE in accordance with the procedures and requirements described herein.

F. Contract Provisions for the Sale or Transfer of LNG to be Exported

DOE will require that Navergy file or cause to be filed with DOE any relevant long-term commercial agreements associated with the export of LNG, including agreements pursuant to which Navergy intends to export LNG as agent for a Registrant. DOE finds that the submission of all such agreements or contracts within 30 days of their execution using the procedures described below will be consistent with the “to the extent practicable” requirement of section 590.202(b) of DOE’s regulations.³⁴

³³ See, e.g., *Cameron LNG, LLC*, DOE/FE Order No. 3846, Docket No. 15-90-LNG, Opinion and Order Granting Long-Term, Multi-Contract Authorization to Export Liquefied Natural Gas by Vessel from Trains 4 and 5 of the Cameron LNG Terminal in Cameron and Calcasieu Parishes, Louisiana, to Non-Free Trade Agreement Nations, at 128-29 (July 15, 2016); *Freeport LNG Expansion, L.P., et al.*, DOE/FE Order No. 2913, Docket No. 10-160-LNG, Order Granting Long-Term Authorization to Export Liquefied Natural Gas from Freeport LNG Terminal to Free Trade Nations, at 7-8 (Feb. 10, 2011).

³⁴ 10 C.F.R. § 590.202(b).

In addition, DOE finds that section 590.202(c) of DOE's regulations³⁵ requires that Navergy file, or cause to be filed, all long-term contracts associated with the long-term supply of natural gas to the Facilities, whether signed by Navergy or the Registrant, within 30 days of their execution.

DOE recognizes that some information in Navergy's or a Registrant's long-term commercial agreements associated with the export of LNG, and/or long-term contracts associated with the long-term supply of natural gas to the Facilities, may be commercially sensitive. DOE therefore will provide Navergy the option to file or cause to be filed either unredacted contracts, or in the alternative (A) Navergy may file, or cause to be filed, long-term contracts under seal, but it also will file either: (i) a copy of each long-term contract with commercially sensitive information redacted, or (ii) a summary of all major provisions of the contract(s) including, but not limited to, the parties to each contract, contract term, quantity, any take or pay or equivalent provisions/conditions, destinations, re-sale provisions, and other relevant provisions; and (B) the filing must demonstrate why the redacted information or non-disclosed information should be exempted from public disclosure.³⁶

To ensure that DOE destination and reporting requirements included in this Order are conveyed to subsequent title holders, DOE will include as a condition of this authorization that future contracts for the sale or transfer of LNG exported pursuant to this Order shall include an acknowledgement of these requirements.

G. Export Quantity

This Order grants Navergy's Application in the full volume of LNG requested, up to the equivalent of 51.75 Bcf/yr of natural gas for FTA and non-FTA countries.

³⁵ *Id.* § 590.202(c).

³⁶ *Id.* § 590.202(e) (allowing confidential treatment of information in accordance with 10 C.F.R. § 1004.11).

H. Non-Additive Export Volumes

Consistent with DOE's small-scale export regulations, Navergy may not treat the FTA and small-scale non-FTA volumes in this Order as additive to one another.

VII. ORDER

Pursuant to section 3 of the Natural Gas Act, it is ordered that:

A. NAVERGY INFRASTRUCTURE PARTNERS LLC (Navergy) is authorized by DOE to export domestically produced LNG obtained from any of the eight facilities identified in the updated Appendix C provided in the Supplement to the Application.³⁷ Navergy is authorized to export this LNG in approved ISO containers loaded onto ocean-going container vessels in a volume equivalent to 51.75 Bcf/yr of natural gas. The FTA and small-scale authorizations will commence on the date of this Order and extend through December 31, 2050. Navergy is authorized to export this LNG on its own behalf and as agent for other entities that hold title to the LNG at the time of export, pursuant to one or more contracts of any duration.³⁸

B. This Order does not give Navergy an independent right to purchase or load LNG from any of the identified Facilities. Navergy and each Facility may agree upon contractual terms for Navergy's export services, as they deem appropriate. Additionally, this Order does not restrict, through volume limitations or otherwise, any existing or future authorizations issued by DOE for any of the Facilities.³⁹

³⁷ If, in the future, Navergy wishes to obtain LNG for export from facilities other than the facilities listed in the updated Appendix C provided in the Supplement to the Application, Navergy will be required to file with DOE a request to amend this Order to add those facilities. DOE will evaluate that request under the same standards of review discussed above.

³⁸ See U.S. Dep't of Energy, Including Short-Term Export Authority in Long-Term Authorizations for the Export of Natural Gas on a Non-Additive Basis, 86 Fed. Reg. 2243 (Jan. 12, 2021).

³⁹ See *BP Energy Co.*, DOE/FE Order No. 4302, Docket No. 18-69-LNG, Order Granting Blanket Authorization to Export Previously Imported Liquefied Natural Gas by Vessel to Free Trade Agreement and Non-Free Trade Agreement Nations, at 13-14, 19 (Nov. 19, 2018).

C. Exports of LNG under this Order may be exported by vessel to any country with the capacity to import LNG, and with which trade is not prohibited by U.S. law or policy.

D. For the authorization to non-FTA countries under the Small-Scale Rule, Navergy must commence export operations using the Facilities no later than two years from the date of issuance of this Order.

E. Navergy shall ensure that all transactions authorized by this Order are permitted and lawful under U.S. laws and policies, including the rules, regulations, orders, policies, and other determinations of the Office of Foreign Assets Control of the U.S. Department of the Treasury, the Federal Energy Regulatory Commission, and the Pipeline and Hazardous Materials Safety Administration of the U.S. Department of Transportation, as applicable. Failure to comply with these requirements could result in rescission of this authorization and/or other civil or criminal penalties.

F. (i) Navergy shall file, or cause others to file, with the U.S. Department of Energy, Hydrocarbons and Geothermal Energy Office, Office of Strategic Resources, Office of Global Energy Security (EX-31) an unredacted copy of all executed long-term contracts associated with the long-term export of LNG. The unredacted copies must be filed within 30 days of their execution and may be filed under seal, as described above.

(ii) Navergy shall file, or cause others to file, with the Office of Global Energy Security a non-redacted copy of all executed long-term contracts associated with the long-term supply of natural gas to the Facilities. The unredacted copies must be filed within 30 days of their execution and may be filed under seal, as described above.

G. Navergy is permitted to use its authorization to export LNG as agent for other LNG title-holders (Registrants), after registering those entities with DOE. Registration materials shall

include an agreement by the Registrant to supply Navergy with all information and copies of contracts necessary to permit Navergy to register that person or entity with DOE, including: (1) the Registrant's agreement to comply with this Order and all applicable requirements of DOE's regulations at 10 C.F.R. Part 590, including but not limited to destination restrictions; (2) the exact legal name of the Registrant, state/location of incorporation/registration, primary place of business, the Registrant's ownership structure, including the ultimate parent entity if the Registrant is a subsidiary or affiliate of another entity; (3) the name, title, mailing address, e-mail address, and telephone number of a corporate officer or employee of the Registrant to whom inquiries may be directed; and (4) within 30 days of execution, a copy of any long-term contracts not previously filed with DOE, described in Ordering Paragraph F of this Order.

Any change in the registration materials—including changes in company name, contact information, length of the long-term contract, termination of the long-term contract, or other relevant modifications—shall be filed with DOE within 30 days of such change(s).

H. Navergy, or others for whom Navergy acts as agent, shall include the following provision in any agreement or contract for the sale or transfer of LNG exported pursuant to this Order:

Customer or purchaser acknowledges and agrees that it will resell or transfer LNG purchased hereunder for delivery only to countries identified in Ordering Paragraph C of DOE/HGEO Order No. 5419, issued May 22, 2026, in Docket No. 26-16-LNG, and/or to purchasers that have agreed in writing to limit their direct or indirect resale or transfer of such LNG to such countries. Customer or purchaser further commits to cause a report to be provided to NAVERGY INFRASTRUCTURE PARTNERS LLC that identifies the country (or countries) into which the LNG was actually delivered, and to include in any resale contract for such LNG the necessary conditions to ensure that NAVERGY INFRASTRUCTURE PARTNERS LLC is made aware of all such countries.

I. Within two weeks after the first export authorized in Ordering Paragraph A occurs, Navergy shall provide DOE written notification of the date on which the first export occurred.

J. With respect to any change in control of the authorization holder, Navergy must comply with DOE's Procedures for Change in Control Affecting Applications and Authorizations to Import or Export Natural Gas.⁴⁰

K. Monthly Reports: With respect to the exports authorized by this Order, Navergy shall file with the Office of Global Energy Security, within 30 days following the last day of each calendar month, a report on Form FE-746R indicating whether exports of LNG have been made. The first monthly report required by this Order is due no later than the 30th day of the month following the month of first export. In subsequent months, if exports have not occurred, a report of "no activity" for that month must be filed. If exports have occurred, the report must provide the information specified for each applicable activity and mode of transportation, as set forth in the Guidelines for Filing Monthly Reports. These Guidelines are available at <https://www.energy.gov/hgeo/guidelines-filing-monthly-reports>.

(Approved by the Office of Management and Budget under OMB Control No. 1901-0294)

L. All monthly report filings on Form FE-746R shall be made to the Office of Global Energy Security according to the methods of submission listed on the Form FE-746R reporting instructions available at <https://www.energy.gov/hgeo/regulation>.

Issued in Washington, D.C., on May 22, 2026.

Amy Sweeney
Director, Office of Global Energy Security
Office of Strategic Resources
