ORDER GRANTING BLANKET AUTHORIZATION  
TO IMPORT AND EXPORT NATURAL GAS  
FROM AND TO CANADA

DOE/HGEO ORDER NO. 5438

JULY 2, 2026

## I. DESCRIPTION OF REQUEST

On April 20, 2026, Anew Canada Low Carbon Fuels, Inc. (Anew Canada Low Carbon Fuels) filed an application with the Hydrocarbons and Geothermal Energy Office (HGEO) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)<sup>1</sup> for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on July 2, 2026. Anew Canada Low Carbon Fuels is a Canada corporation with its principal place of business in Calgary, Alberta, Canada.

1. Import natural gas from Canada by pipeline at any point on the border between the United States and Canada
2. Export natural gas to Canada by pipeline at any point on the border between the United States and Canada

Import and export authority was requested for up to a combined total volume equivalent to 10 billion cubic feet (Bcf) of natural gas.

---

1. On November 20, 2025, the Office of Fossil Energy and Carbon Management (FECM) changed its name to the Hydrocarbons and Geothermal Energy Office (HGEO). Authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FECM (now the Assistant Secretary for HGEO) in Redelegation Order No. S4-DEL-FE1-2023, issued on April 10, 2023.

## II. **FINDING**

DOE has evaluated the application to determine if the proposed import and/or export arrangements meet the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including liquefied natural gas (LNG), from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.<sup>2</sup> DOE must grant such applications without modification or delay.<sup>3</sup> The authorization sought by Anew Canada Low Carbon Fuels meets the NGA section 3(c) criteria and, therefore, is deemed to be consistent with the public interest.

### **ORDER**

Pursuant to section 3(c) of the NGA, it is ordered that:

A. Anew Canada Low Carbon Fuels is authorized for the activity described in the list below. This authorization shall be effective for a two-year term beginning on July 2, 2026, and extending through July 1, 2028.
