GULF LNG LIQUEFACTION COMPANY, LLC
DOCKET NO. 12-101-LNG

PROPOSED ACTION DESCRIPTION: Gulf LNG Liquefaction Company, LLC (GLLC) filed a “Request for Extension of Commencement Deadline” (Request) with the Department of Energy’s (DOE) Hydrocarbons and Geothermal Energy Office (HGEO)¹ on March 31, 2026, pursuant to section 3 of the Natural Gas Act (NGA)² and 10 CFR Part 590 of DOE’s regulations.

In the Request, GLLC seeks to amend its existing long-term authorization to export domestically produced liquefied natural gas (LNG), set forth in DOE/FE Order No. 4410, as amended.³ Under Order No. 4410, as amended, GLLC is authorized to export LNG by vessel in a volume equivalent to 558.9 billion cubic feet per year of natural gas from the proposed Gulf LNG Liquefaction Project, to be located at the Gulf LNG Terminal in Jackson County, Mississippi, near the city of Pascagoula, for a term ending on December 31, 2050. GLLC is authorized to export this LNG to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries).⁴

In the Request, GLLC asks DOE to amend Order No. 4410, as amended, to extend its current deadline to commence exports, from July 31, 2026, to July 31, 2031.

Additionally, to align the authorization with DOE’s current practice, DOE is proposing to further amend Order No. 4410 to allow three additional years for GLLC to export the approved volume of LNG beyond the export term ending on December 31, 2050.⁵ This three-year period, known as the Make-Up Period, would extend through December 31, 2053. GLLC would not be permitted to exceed its approved non-FTA export volume of 558.9 Bcf/yr over the three-year Make-Up Period, absent appropriate authorization by DOE.

DOE’s proposed action is to grant these amendments to Order No. 4410, as amended, if DOE determines that there is good cause to extend the export commencement deadline and that adding the Make-Up Period is necessary and appropriate. If granted, the amended authorization would extend GLLC’s current export commencement deadline under Order No. 4410, as amended, to July 31, 2031, and would include the Make-Up Period, subject to certain terms and conditions set forth in the Order.

¹ The Office of Fossil Energy (FE) changed its name to the Office of Fossil Energy and Carbon Management (FECM) on July 4, 2021. Subsequently, on November 20, 2025, FECM changed its name to the Hydrocarbons and Geothermal Energy Office (HGEO). DOE uses the acronym in effect at the time of each order or action discussed herein.

CATEGORICAL EXCLUSION APPLIED: B5.7 - Export of natural gas and associated transportation by marine vessel

For DOE procedures regarding categorical exclusions, including the full text of each categorical exclusion, see 10 CFR 1021.102 and Appendix B in 10 CFR Part 1021, as well as Section 5.4 and Appendices B and C of DOE's National Environmental Policy Act (NEPA) Implementing Procedures (July 13, 2026).⁶

Regulatory requirements and guidance in 10 CFR 1021.102 and DOE's NEPA Implementing Procedures, respectively: (See full text in regulation and DOE's NEPA Implementing Procedures)

[✓] The proposal fits within a class of actions that is listed in Appendix B to 10 CFR Part 1021 or Appendix B or C of DOE's NEPA Implementing Procedures.

[✓] There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

[✓] The proposal has not been segmented to meet the definition of a categorical exclusion.

Based on my review of the proposed action, as NEPA Compliance Officer, I have determined that the proposed action fits within the specified class(es) of action, the other requirements and guidance set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.
