To Whom It May Concern:

LOUISIANA LNG INFRASTRUCTURE LLC
FE DOCKET NO. 16-144-LNG
DOE/FE ORDER NOS. 3968, 3968-A, 3968-B, 4373, 4373-A, 4373-B, AND 4373-C
SEMI-ANNUAL REPORT (APRIL 1, 2026 THROUGH SEPTEMBER 30, 2026)

Pursuant to Condition J of DOE/FE Order No. 3968 (as amended by DOE/FE Order Nos. 3968-A and 3968-B)¹, and Condition M of DOE/FE Order No. 4373 (as amended by DOE/FE Order Nos. 4373-A and 4373-B)², Louisiana LNG Infrastructure LLC ("LALNG") is providing herein the semi-annual status report for the Woodside Louisiana LNG Project (the "Project") for the period April 1, 2026 through September 30, 2026.

On December 16, 2025, DOE issued an amendment to Order 4373, Term and Condition B, to extend Louisiana LNG's commencement of LNG export operations date to December 31, 2029.³ LALNG has obtained all applicable federal, state, and local permits required for the Project at this time.

Below is a summary of ongoing, completed, and new and upcoming Project construction activities during this reporting period.

Ongoing Activities

Construction at the site continues with marine dredging and piling, earthmoving, soil improvement, concrete placement, structural steel erection, LNG Tank 1 and LNG Tank 2 erection, and aboveground piping installation comprising the key work fronts. General site work included dredging of the Project berth area, yielding approximately 1,800,000 cubic yards of material placed in the beneficial use of dredge material ("BUDM") area. Work continued on the western and northwestern sections of the storm berm, pile installation for the main berth, Plant 3, permanent buildings, and substations, and concrete work for LNG Trains 1, 2, and 3 and the Outside Battery Limits ("OSBL") areas. Additionally, infrastructure development for yards, buildings, and underground utility piping (firewater, oil, and potable water) remains underway.

¹ *Driftwood LNG LLC*, Order Granting Long-term, Multi-Contract Authorization to Export Liquefied Natural Gas By Vessel From the Proposed Driftwood LNG Facility in Calcasieu Parish, Louisiana, to Free Trade Agreement Nations, DOE/FE Order No. 3968, FE Docket No. 16-144-LNG (Feb. 28, 2017), *amended*, *Driftwood LNG LLC*, Order Amending Long-Term, Multi-Contract Authorization to Export Liquefied Natural Gas By Vessel From the Proposed Driftwood LNG Facility in Calcasieu Parish, Louisiana, to Free Trade Agreement Nations, DOE/FE Order No. 3968-A, FE Docket No. 16-144-LNG (Dec. 6, 2018), *amended*, *Louisiana LNG Infrastructure LLC*, Order Granting Request to Amend Authorizations to Export Liquefied Natural Gas to Reflect Corporate Name Change, DOE/FECM Order Nos. 3968-B & 4373-B, Docket No. 16-144-LNG (Feb. 26, 2025).

² *Driftwood LNG LLC*, Opinion and Order Granting Long-Term Authorization to Export Liquefied Natural Gas to Non-Free Trade Agreement Nations, DOE/FE Order No. 4373, FE Docket No. 16-144-LNG (May 2, 2019), *amended*, *Driftwood LNG LLC*, Order Extending Export Term for Authorization to Non-Free Trade Agreement Nations Through December 31, 2050, DOE/FE Order No. 4373-A, FE Docket No. 16-144-LNG (Dec. 10, 2020), *amended*, *Louisiana LNG Infrastructure LLC*, Order Granting Request to Amend Authorizations to Export Liquefied Natural Gas to Reflect Corporate Name Change, DOE/FECM Order Nos. 3968-B & 4373-B, Docket No. 16-144-LNG (Feb. 26, 2025).

³ *Louisiana LNG Infrastructure LLC*, Order Amending Long-Term Authorization to Export Liquefied Natural Gas to Non-Free Trade Agreement Countries, DOE/FECM Order No. 4373-C (Dec. 16, 2025).

Completed Activities

Several Project construction activities were completed during the reporting period, including the Material Offloading Facility ("MOF"). For the LNG storage tanks, concrete wall pours for sections 1 through 6 of Tank 1 and sections 1 and 2 of Tank 2 were completed. The south and southwest sections of the perimeter berm were also completed, along with installation of various equipment within Plant 1 and the OSBL areas.

New and Upcoming Work

New Project construction activities initiated during this reporting period include concrete installation for LNG Trains 2 and 3, pile installation in Plant 3, and structural steel erection for LNG Train 2 and the OSBL areas. Within the OSBL areas, work has also begun on the LNG trench system, Condensate Tank, and LNG sump.

For detailed construction status reports for the Project, please refer to the Federal Energy Regulatory Commission's ("FERC") eLibrary website. The applicable FERC accession numbers for the Project's monthly construction reports during the reporting period are as follows: 20260422-5020, 20260520-5173, 20260623-5014, 20260721-5206, 20260821-5006, and 20260921-5200.

Anticipated Commencement of LNG Exports

First exports from the Project are currently expected to commence in 2029.

Contracts Filed with DOE

In accordance with Conditions D(1) and D(2) of DOE/FE Order No. 3968, as amended, and Conditions I(i) and I(ii) of DOE/FE Order No. 4373, as amended, LALNG is filing with DOE/FECM concurrently with this report the following contracts: (1) a Transaction Confirmation between Louisiana LNG Gas Management LLC, an affiliate of LALNG, and BP Energy Company, dated September 8, 2026; and (2) a First Amendment to Guaranty Agreement between Woodside Energy Group Ltd., a parent of LALNG, and BP Energy Company, dated August 31, 2026. LALNG is continuing to develop and negotiate terms for additional long-term LNG export contracts and long-term supply contracts for the Project and will file copies of such long-term contracts with DOE/FECM following execution.

For any further inquiries, please contact the undersigned at (713) 961-8500.

Sincerely

Jeremy Webb
