CENTRAL ANAHUAC S.A. DE C.V.

DOCKET NO. 26-84-NG

ORDER GRANTING BLANKET AUTHORIZATION
TO IMPORT AND EXPORT NATURAL GAS
FROM AND TO MEXICO

DOE/HGEO ORDER NO. 5492

OCTOBER 7, 2026

I. **DESCRIPTION OF REQUEST**

On July 14, 2026, Central Anahuac S.A. de C.V. (Central Anahuac) filed an application with the Hydrocarbons and Geothermal Energy Office (HGEO) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)¹ for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on October 7, 2026. Central Anahuac is a Mexico corporation with its principal place of business in Valle Hermos, Tamaulipas, Mexico.

1. Import natural gas from Mexico by pipeline at any point on the border between the United States and Mexico
2. Export natural gas to Mexico by pipeline at any point on the border between the United States and Mexico

Import and export authority was requested for up to a combined total volume equivalent to 64 billion cubic feet (Bcf) of natural gas.

1. On November 20, 2025, the Office of Fossil Energy and Carbon Management (FECM) changed its name to the Hydrocarbons and Geothermal Energy Office (HGEO). Authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FECM (now the Assistant Secretary for HGEO) in Redelegation Order No. S4-DEL-FE1-2023, issued on April 10, 2023.

II. **FINDING**

DOE has evaluated the application to determine if the proposed import and/or export arrangements meet the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including liquefied natural gas (LNG), from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.² DOE must grant such applications without modification or delay.³ The authorization sought by Central Anahuac meets the NGA section 3(c) criteria and, therefore, is deemed to be consistent with the public interest.

ORDER

Pursuant to section 3(c) of the NGA, it is ordered that:

A. Central Anahuac is authorized for the activity described in the list below. This authorization shall be effective for a two-year term beginning on October 7, 2026, and extending through October 6, 2028.

1. Import natural gas from Mexico by pipeline at any point on the border between the United States and Mexico
2. Export natural gas to Mexico by pipeline at any point on the border between the United States and Mexico

The applicant is authorized to import and export up to a combined total volume equivalent to 64 Bcf of natural gas.

2. 15 U.S.C. § 717b(c).

Monthly reports must be filed whether or not initial deliveries have begun. If no imports and/or exports have been made, a report of "no activity" for that month must be filed. These Guidelines are available at: <https://www.energy.gov/hgeo/guidelines-filing-monthly-reports>.

(Approved by the Office of Management and Budget under OMB Control No. 1901-0294)
